

3M On-demand Methodology Training

- Provides organizations who are adopting and implementing 3M patient classification methodologies with convenient on-demand education and training
- Highlights the value that 3M methodologies bring to payers, providers and other organizations through self-paced learning
- Helps organizations focus on their high-priority initiatives by facilitating quicker understanding and adoption of the methodologies

The 3M advantage

Whether your organization is processing claims for hospital reimbursement and reporting, editing patient records in real time, or leveraging patient data for improved risk stratification, 3M offers innovative patient grouping methodologies and classification solutions to meet your needs.

With 3M On-demand Methodology Training, your staff can now access the high-quality introductory videos, self-paced learning modules and supplemental reference materials that can help them quickly come up to speed on their new 3M technology, driving utilization, efficiency and growth.

Understanding the value of 3M patient classification methodologies

The 3M On-demand Methodology Training is designed to help smooth the learning curve between understanding a 3M methodology, its proper use and how to best work with the output. The methodologies define and measure risk adjustment, payment, reporting, population health and quality improvement.

When implementing a methodology, organizations must quickly understand the advantages and the clinical logic at work behind the data. 3M On-demand Methodology Training can build and support that understanding and is like having a 3M consultant on site to help guide your education needs and provide easy access to training materials and reference content.

3M On-demand Methodology Training can help your organization:

- Understand 3M methodology fundamentals and how risk adjustment is required to evaluate performance
- Interpret and use reports that support your organization's programs and goals
- Deliver high quality, standardized training content through a seamless learning experience

The benefits of self-paced learning

Your organization can benefit from 3M's industry-recognized expertise, with more than 30 years of experience developing classification, grouping and reimbursement calculation systems for inpatient, outpatient and professional settings. 3M On-demand Methodology Training reflects and embodies that experience and expertise.

Online, self-paced learning offers these advantages:

- Convenience—users learn at their own pace and on their own schedules
- An established base of common understanding among all users
- Adaptability to all types of learning styles
- Faster adoption of new products

3M On-demand Methodology Training

3M On-demand Methodology Training provides tools to help your team successfully use 3M methodologies, and the training is all accessible through a single, web-based learning platform. The content is regularly updated and maintained, keeping your personnel in the know.

On the learning platform, users will find:

- Overview video and introduction
- Foundational self-paced learning modules
- On-demand recorded presentations
- Linked reference materials, such as the methodology overview, definitions manual, weights and more

3M On-demand Methodology Training is currently available for these methodologies:

- **3M™ Enhanced Ambulatory Patient Groups (EAPGs)**
- **3M™ Clinical Risk Groups (CRGs)**
