On-demand methodology training from 3M

- Provides organizations who are adopting and implementing 3M patient classification methodologies with convenient on-demand education and training
- Highlights the value that 3M methodologies bring to payers, providers and other organizations through self-paced learning
- Helps organizations focus on high priority initiatives by facilitating quicker understanding and adoption of the methodologies

The 3M advantage

Whether your organization is processing claims for hospital reimbursement and reporting, editing patient records in real time, or leveraging patient data for improved risk stratification, 3M offers innovative patient grouping methodologies and classification solutions to meet your needs.

With on-demand methodology training, your staff can now access the high quality introductory videos, self-paced learning modules and supplemental reference materials that can help them quickly get up to speed on their new 3M technology, driving utilization, efficiency and growth.

Understanding the value of 3M patient classification methodologies

3M’s on-demand methodology training is designed to help smooth the learning curve between understanding a 3M methodology, its proper use and how to best work with the output. The methodologies define and measure risk adjustment, payment, reporting, population health and quality improvement.

When implementing a methodology, organizations must quickly understand the advantages and the clinical logic at work behind the data. On-demand methodology training from 3M is like having your own 3M consultant on site to help guide your education needs and provide easy access to training materials and reference content.

3M’s on-demand methodology training can help your organization:

- Understand 3M methodology fundamentals and how risk adjustment is required to evaluate performance
- Interpret and use reports that support your organization’s programs and goals
- Deliver high quality, standardized training content through a seamless learning experience
Laying the foundation for success

On-demand training from 3M is designed to help clients gain a better understanding of the 3M patient classification methodologies. This increased knowledge can result in:

- Improved accuracy of clinical documentation and resources usage
- More accurate and consistent comparison of care quality
- Improved knowledge of reimbursement for care delivered
- Ability to create direct comparison between entities (hospitals, providers, etc.)
- Greater understanding of how 3M methodologies work together (for example 3M™ All Patient Refined (APR) DRG Classification System is the basis for 3M™ Potentially Preventable Readmissions (PPR))
- Enhanced ability to articulate clinical justification for grouping

Your organization can benefit from 3M’s industry recognized expertise, with more than 35 years of experience developing classification, grouping and reimbursement calculation systems for inpatient, outpatient and professional settings. The on-demand methodology training reflects and embodies that experience and expertise.

3M’s on-demand methodology training is currently available for these methodologies:

- 3M APR DRGs
- 3M PPRs
- 3M™ Enhanced Ambulatory Patient Groups (EAPGs)
- 3M™ Clinical Risk Groups (CRGs)
- 3M™ Potentially Preventable Complications (PPC)
- 3M™ Population-focused Preventables including:
  - 3M™ Potentially Preventable Ancillary Services
  - 3M™ Potentially Preventable Emergency Department Visits
  - 3M™ Potentially Preventable Admissions
- 3M™ Patient-focused Episodes (PFE)

On-demand methodology training from 3M provides tools to help your team successfully use 3M methodologies, and the training is all accessible through a single, web-based learning platform. The content is regularly updated and maintained, keeping your personnel in the know.

3M patient classification methodologies are the incorporated into many 3M solutions including:

- 3M™ 360 Encompass™ System
- 3M™ Coding and Reimbursement System
- 3M™ Advanced CDI Transformation Program
- 3M™ Intelligent Data Asset™
- 3M™ Payment Transformation Program™
- 3M™ Grouper Plus Content Services
- 3M™ Core Grouping Software
