

# Know now and save.

## Protect your patients and your practice with biological indicator results in 24 minutes.

In-office sterilizer spore testing can help reduce the risk of patient exposure to contaminated dental instruments. With the 3M™ Attest™ Mini Auto-reader, you don't have to wait days for sterilization verification. With results in just 24 minutes, you can know results before you release instruments for use — offering your patients a high standard of care.

The 3M™ Attest™ Mini Auto-reader was designed to be sized and priced for your practice and built with the same expert 3M sterilization assurance technology as used in hospitals. Implementing 3M's family of sterilization products is at your fingertips. Request your starter kit and save money. One kit is all you need to get started with in-house monitoring.
