3M™ Road Marking
Security and cost efficiency
for years

Less maintenance, less traffic jams, less risk for roadworkers.

3M™ Stamark™ High Performance Pavement Marking Tape A380 ESD delivers a proven durability performance of up to 8 years* under heavy traffic loads, minimizing replacement cycles and saving maintenance costs over the lifetime of the road.

Average measured values for retroreflection of 380 in Germany

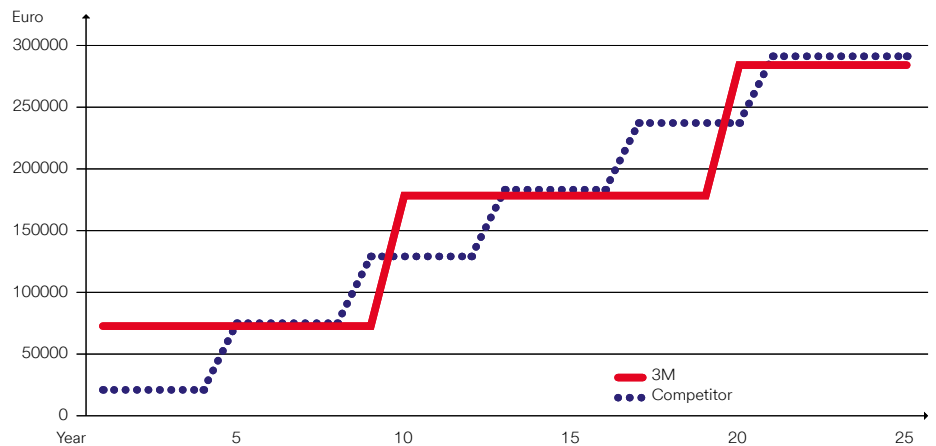

An increase in safety and durability with long-term compliance of safety standards for high road requirements.

Source: Quality Measurements 3M, Germany, sample selected motorways across Germany

Comparison of costs per year of alternative marking materials / 3M Permanent Marking Tapes

Even under high traffic exposure, the 3M pavement markings need to be replaced less frequently than comparable products with a lower price.

Source: Empirical consideration of total costs over a period of 25 years

Choose the reliable durability of 3M™ Stamark™ High Performance Pavement Marking Tape A380 ESD with lower costs, less congestion and fewer risks of accidents.
