**3M™ Scotchbond™ Universal Plus**  
Adhesive

**More than just  
a strong bond.**

3M™  
Scotchbond™  
Universal Plus  
Adhesive takes  
universal adhesives to  
the next level.

It keeps all the benefits of the  
original 3M™ Scotchbond™  
Universal Adhesive, the first truly  
universal adhesive, while adding  
even greater control and  
predictability – because a  
good adhesive should  
provide more than just  
a strong bond.

Resin Cement**  
excellent bond strength for virtually all resin cement  
indications. Adhesive cured by cement.

# Added radiopacity

On average, dentists see at least one hard to interpret X-ray per day due to radiolucency under an existing restoration. This could lead to misdiagnosis and invasive overtreatment. 3M™ Scotchbond™ Universal Plus Adhesive is the first radiopaque universal adhesive with dentin-like radiopacity, helping to overcome this issue.

“ Radiolucent adhesive pooling underneath a restoration doubles the risk of restoration replacement.”

Dr. John O. Burgess,  
University of Alabama, USA

**Intentional adhesive pooling under Class I restorations** – X-rays of extracted human molars, filling material 3M™ Filtek™ One Bulk Fill Restorative. 3M internal data, H. Loll et al., J Dent Res 99 (Spec Iss A): No. 757, 2020
