

## 3M™ M\*Modal Fluency Direct compatibility with Compulink Advantage EHR

- Combines documentation creation and CDI into one workflow with CAPD
- Creates time to care by enabling physicians of any medical specialty to dictate higher quality clinical notes directly in the EHR
- A single, cloud-based user speech profile allows physicians to dictate from multiple locations as they move between exam rooms, office and home

### The 3M advantage

The combination of 3M and M\*Modal allows us to use our strengths to close the loop between care and revenue integrity.

Our advanced speech understanding solution is designed to optimize the EHR experience, drive higher quality documentation and enable physicians to spend more time with their patients.

Advanced speech and artificial intelligence (AI)-powered 3M™ M\*Modal Fluency Direct is compatible with the Compulink Advantage EHR system. 3M Fluency Direct streamlines and simplifies the physician documentation process within the EHR, ultimately improving productivity and the user experience.

By speech enabling the Compulink EHR, 3M Fluency Direct drives faster creation of higher quality notes directly in the EHR. 3M leverages proprietary speech understanding, which includes natural language understanding (NLU) for contextual understanding of the physician narrative for out-of-the-gate accuracy.

3M Fluency Direct fully supports Compulink Advantage. Using a single, cloud-hosted user speech profile, 3M Fluency Direct allows physicians of any medical specialty to capture the complete narrative using any workflow and any device from any location.

### Call today

For more information on how 3M products and services can assist your organization, contact your 3M sales representative, call us toll-free at 800-367-2447, or visit us online at [www.3M.com/his](http://www.3M.com/his).

**Front-end speech recognition:** 3M Fluency Direct offers superior performance and reliability in capturing the physician's spoken word directly in EHR fields. With 3M Fluency Direct, Compulink users can conversationally create, review, edit and sign clinical notes directly in EHR templates. All medical specialties and subspecialty vocabularies are supported, as is the use of customized templates, macros and a library of voice commands. 3M Fluency Direct is certified to work in Compulink Advantage's hosted environment.

**Computer-assisted physician documentation (CAPD):** An embedded functionality of 3M Fluency Direct, our CAPD delivers real time and fully automated feedback while the physician is dictating or typing so that the patient record is complete and accurate right from the start.
