3M™ Clean & Protect Certified Badge Program

As the world emerges from the global COVID-19 pandemic, your guests and employees are greeting the return to normal activities with excitement and heightened sense of awareness about health and safety.

Help put them at ease with the new 3M™ Clean & Protect Program.

Reopen with peace of mind.

With the reduction of pandemic restrictions, there is much excitement about a return to normal activities like dining out, traveling, attending events and learning in person. However, even as the pandemic eases, your guests and employees may still harbor doubts and fears about the cleanliness of public spaces.

Show them how much you care about health and safety with the 3M™ Clean & Protect Certified Badge Program, a new comprehensive system for cleaning, monitoring and protecting your facility so you can reopen – and stay open – with confidence.

- ▶ Provide effective, reliable solutions that help keep your facility clean, safe and operational
- ▶ Verify and monitor the cleanliness of your non-porous surfaces in real time with the 3M™ Clean Trace™ ATP Cleaning Monitoring System
- ▶ Train your staff in the latest cleaning and disinfecting protocols with our online educational learning modules
- ▶ Deliver graphics that promote compliance with social distancing guidelines
