United States & Canada (USAC) Product Announcement: Phase-In, Phase-Out
3M™ Adflo™ PAPR Battery Smart Charger, for Lithium Ion Battery (35-0099-08)

Dear Valued Customer:

In an effort to continuously improve our welding solutions, 3M Speedglas is announcing a phase in of an upgraded version of the Adflo charger and phase out of the earlier version. This transition will start mid/late Q2 and is estimated to be completed during Q3 2020. The new charger will have the same part number (35-0099-08) and price, but will have a new SAP ID, 3M ID, and UPC. The upgraded charger will be delivered in a box with new graphics in order to be easily recognized compared to the earlier version. The same power plug connector and approvals are included in the box and all shipper boxes remain with same quantities. The main functionality is the same, and it carries over the newly reinforced prongs for more durability as you connect and disconnect the charger to the battery.

Adflo System pack outs will automatically be transferred to include the newer version, and there will be no changes on system SKU's for Adflo pack-outs.

Product Data:

3M Part #	3M ID	SAP ID	UPC	Comment
35-0099-08	70071651973	7100025244	00051141560816	Old Phased OUT
35-0099-08	70071734324	7100227913	00638060429884	New Phased IN

Product Change Overview:

Old charger:

Shape: Wide casing
Country of Origin: PL - Poland
Box: White with no graphics

New charger:

Shape: Long/thin casing
Country of origin: EE – Estonia
Box: Graphics included

3M strives to provide the highest quality of welding safety products in the marketplace, and we regret any inconvenience these updates may cause. If you have any questions regarding this product announcement, please contact the writer.

Sincerely,

Thomas Reinholt | Marketing Manager - Welding
