

Key benefit

- Virtually no bubbles or material “run-on”
- Easy-to-bend cannula for improved access
- Ergonomic design is easy to hold and inject
- Excellent adaptation, polish retention and wear resistance
- Versatile for a wide range of indications and techniques

Can be warmed for injection molding

Warm up to 70°C (158°F) for up to one hour, up to 25 times.

Clinical cases

3M™ Filtek™ Supreme Flowable Restorative offers a smooth transition from material to tooth for esthetic restorations.
