

Product Description

3M™ Green Economy Floor Pad is a floor maintenance scrubbing pad made of synthetic fibers in an open-textured non-woven construction. Cleaning particles are dispersed throughout and bonded with resin. Each floor pad has a pre-cut center hole.

Application

3M™ Green Economy Floor Pad is designed for general wet cleaning. It removes marks and soil from floors, and it is used for scrubbing and recoating operations. For use with single disc machines or automatic floor cleaning machines with slow speed (150 - 400 RPM).

Directions for Use

Regular Cleaning under the scrubber-dryer

- Install a clean floor pad under the machine driving plate.
- Scrub the desired area and vacuum with a scrubber-dryer.
- Remove the pad and wash after use.

Scrub and Recoat Operation

- Install a clean floor pad under the machine driving plate.
- Scrub the protected area with a few passes in order to remove part of the protection layers (damaged layers).
- Remove the pad and wash after use. Do not let the dirt dry on the floor pad.
- Rinse and let the surface dry.
- Apply one or several brand-new layers of protection.

Maintenance and Cleaning

- Remove the floor pad from the machine after each use.
- Scrub both sides of the pad with the center hole cut out material or with a nylon brush under tap water or spray hose both sides.
- Rinse and hang up to dry.

Product Characteristics

The values displayed are the results of illustrative lab test measures and shall not be considered as a commitment from 3M.

Fiber Type:	Nylon and Polyester
Thickness:	25 mm
Color:	Green
Printing:	No
Center hole:	Pre-cut at 85 mm

Packaging

Each carton shall be labelled to identify the contents by product name, size, quantity and manufacturer.

Standard Sizes

Circular discs are available in a variety of common sizes.

Storage Conditions and Shelf Life

Storage conditions: +4°C to +40°C, out of sunlight, original container in a clean and dry indoor area.

Health and Safety

When handling any chemical products, read the manufacturer's container labels and the Safety Data Sheets (SDS) for important health, safety and environmental information.

[Follow the link to obtain SDS sheets for 3M products on 3M.com/SDS.](https://www.3m.com/SDS)

IMPORTANT!

- When using any equipment, always follow the manufacturer's instructions for safe operation.
- This floor pad is for professional or industrial use only.

DANGER

To reduce the risks associated with inhalation of or exposure to contaminants:
DO NOT use this product on any asbestos-containing material.

WARNING

To reduce the risks associated with inhalation of or exposure to contaminants:

- Ensure this product is used in the recommended applications with the suggested equipment.
- Do not allow this product to be used by untrained operators.
- Always follow standard safety practices, including wearing appropriate protective apparel and eye protection, while using this product.

To reduce the risks associated with environmental contamination:

- Dispose of waste and slurries generated from wet polishing in accordance with all applicable local and government regulations.

CAUTION

The product is intended for wet floor maintenance processes only. DO NOT use this product in any dry application.

Warranty Information

Limited Remedy

This bulletin provides technical information only.

3M recommended product end uses are listed in each 3M product bulletin. End uses not listed in the applicable 3M Product Bulletins are typically not eligible for 3M Warranties. For non-recommended and/or non-warranted end uses or applications, users must test and approve the end uses or applications, assume any associated risks, and acknowledge that 3M has no liability for such end uses or applications. Please contact your 3M representative with any questions about applications, end uses, and warranties.

Limitations of liability

All questions of warranty and liability relating to this product are governed by the terms and conditions of the sale, subject, where applicable, to the prevailing law.
