Re: Lead time update for the 3M™ Four-Wall Header, 2500 Series

3M has encountered significant delays in the shipment of some equipment from Columbia, MO to the new SE Asia manufacturing location, supporting production of the 3M™ Four-Wall Header, 2500 Series connectors products. While 3M does have some equipment installed and fully operational in Vietnam, we are not yet at full planned capacity due to unexpected transit delays caused by the global container shortage. Additionally, 3M has seen a surge in customer demand.

As such, please be advised that 3M is temporarily increasing lead times on the 3M header, 2500 series of products to 112 days, effective immediately. 3M expects to have the additional equipment fully qualified in May 2021 and plans to reduce manufacturing lead times once this capacity is operational. Please see Appendix A for a full list of impacted SKUs.

We apologize for the delay. Please reach out if you have any questions or concerns regarding the transition.

Thank you for your continued partnership with 3M.

Kim Griger  
Marketing Manager  
3M Electronics Materials Solutions Division

Appendix A: 3M™ Four-Wall Header, 2500 Series
