**Discontinuation Notice: 3M™ Electrically Conductive Double-Sided Tape 9750B**

To Our Valued Customers:

This letter is to inform you that 3M™ Electrically Conductive Double-Sided Tape 9750B will be discontinued. This product will be available through July 1, 2021, or until inventory is depleted, whichever comes first. Please complete last time buy orders as soon as possible.

Please circulate this notice to the people in your organization who need to know of this change so they can follow up as necessary with either 3M or your customers.

This discontinuation affects the following product numbers:

| Discontinued SKUs |                  |
|-------------------|------------------|
| SKU               | Description      |
| XH003823354       | 9750B 1050MM*50M |

As a replacement, 3M recommends using 3M™ Electrically Conductive Double-Sided Tape 9711S-50, 5113DF-50 and/or 9701-50. However, you will need to determine whether this recommended product is suitable for your intended application.

| Replacement SKUs |                       |
|------------------|-----------------------|
| SKU              | Description           |
| WX300950119      | 9711S-50 1060MM*100MT |

| Replacement SKUs |                      |
|------------------|----------------------|
| SKU              | Description          |
| XP003810551      | 5113DF-50 1050MM*50M |

| Replacement SKUs |                    |
|------------------|--------------------|
| SKU              | Description        |
| WX300948840      | 9701-50 500MM*100M |

If you have any questions or require samples for customer testing, please contact your local 3M representative.

We thank you for your continued collaboration with 3M.

Sincerely,

**Tom Richardson**
