

## 3M Vehicle Color Change Preferred Installer Training – Sample Agenda

The agendas for 3M Preferred Installer courses will be a mix of classroom learning, demonstrations, and hands-on practice with 3M Authorized Trainers.

- The training will begin with introductions and a brief overview of any safety recommendations
- The course will include presentations of the fundamentals, including:
  - Product overview
  - Vehicle preparation
  - Accent-based applications
- Throughout the course, there will also be demonstrations of the fundamentals, including:
  - Squeegee technique
  - Heating the film
  - 3M™ Knifeless Tape basics
  - Identify order of application
- There will also be stations to help practice and learn the following:
  - Racing stripes
  - Door jambs
  - Bumpers
  - Mirror installs
- The course will have ample time to practice, with 3M Authorized Trainers to assist and guide with questions and techniques
- The course will end with a brief recap and a survey
- The final day of the course will be an optional testing day. Installers who pass the test will become a 3M Vehicle Color Change Preferred Installer. Experienced installers are encouraged to participate. New to the industry installers may need additional practice in order to pass the comprehensive test.
