Dust Extraction Solutions Guide

Introducing the new 3M™ Net Abrasives

Go for performance. Leave the dust behind.

Dust.

The hidden — or maybe not-so-hidden — enemy of any body shop.

You know dust is a problem. It can sap your efficiency, create defects and rework, and steal the life from your abrasive.

Once it's in the air, it can settle on your work surfaces in your shop and even creep into your office and waiting room.

The best way to stop dust? The right combination of tools and abrasives let you capture it at the source.

Why dust extraction matters.

When it comes to improving the efficiency and cleanliness of your body shop, proper dust extraction can't be an afterthought. Here's how our dust extraction system can help:

- Reduces the amount of dust in the air from sanding, leading to less rework, driving improved cycle time and process efficiency.
- Reduces cleanup time.
- Enhances workplace efficiency by reducing time spent searching for tools and materials.
- Workcenter enables the use of abrasives to end of life, leading to reduced material spend.
- Increased technician mobility

3M and Festool: The collaboration continues.

Transformation on a global scale doesn't occur in a vacuum. So we carry on, together. Furthering our collective cause by pairing the most advanced net-engineered abrasives with one of the best-known dust extraction systems in the industry.

3M and Festool bring you the Total Automotive Sanding System. Engineered to support the ongoing need for cleaner, more efficient shops.

Introducing

3M™ Net Abrasives

Premium

3M™ Cubitron™ Net Abrasives

In abrasives, premium quality has a name: 3M™ Cubitron™ II. We're reinventing abrasives with innovative net technology coupled with 3M Precision Shaped Grain, so that you no longer have to compromise between peak performance and dust extraction.

Choose the level that meets your shop's needs.

Advanced

3M™ Blue Net Abrasives

This is the surge in productivity you've been asking for. 3M™ Blue Net Abrasives feature an engineered ceramic mineral blend for best-in-class performance and dust extraction at a mid-tier price point.

Cubitron™ II Abrasives

For Dry Sanding

Get the job done sooner with 3M™ Cubitron™ II Net Abrasives, the fastest-cutting and longest-lasting net abrasive discs and sheets in the world. This family of net abrasives delivers 2X the cut rate and 2X the life of other leading net abrasive families. All the while, letting dust extractors perform their best by leaving virtually no dust on the work surface and in the environment.

Available in grades from 80+ to 320+ and in the most-popular disc sizes, compatible with existing dust-extraction sanders.

The 3M™ Hookit™ attachment makes installing a new disc quick and saving a partially-used disc easy.

Premium net disc help allows for virtually dust-free sanding

Blue Abrasives

Get outstanding performance at an affordable price with 3M™ Blue Net Abrasives – the best-performing net abrasive discs and sheets for value-focused pros. 3M™ Blue Net Abrasives are built with an engineered ceramic-mineral blend to deliver a faster cut rate and longer life than other leading brands' net abrasives in their class -- all while capturing more than 95% of dust.

- ▲ Balanced for maximum abrasive performance for cut, life and dust extraction.
- ▲ 3M™ Hookit™ attachment makes changing discs fast and easy, allowing a technician to save a partially-used disc and reinstall it later.
- ▲ Available in grades from 80 to 320 in 3-inch, 5-inch, 6-inch, and 8-inch sizes.

Use a protection pad or pad saver to prolong the life of your backup pad and maintain consistent attachment to your net abrasive discs.

Product Selection and Use: Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. As a result, customer is solely responsible for evaluating the product and determining whether it is appropriate and suitable for customer's application, including conducting a workplace hazard assessment and reviewing all applicable regulations and standards (e.g., OSHA, ANSI, etc.). Failure to properly evaluate, select, and use a 3M product in accordance with all applicable instructions and with appropriate safety equipment, or to meet all applicable safety regulations, may result in injury, sickness, death, and/or harm to property.

Warranty, Limited Remedy, and Disclaimer: Unless a different warranty is specifically stated on the applicable 3M product packaging or product literature (in which case such warranty governs), 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ARISING OUT OF A COURSE OF DEALING, CUSTOM, OR USAGE OF TRADE. If a 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M's option, replacement or repair of the 3M product or refund of the purchase price. Warranty claims must be made within one (1) year from the date of 3M's shipment.

Limitation of Liability: Except for the limited remedy stated above, and except to the extent prohibited by applicable law, 3M will not be liable for any loss or damage arising from or related to the 3M product, whether direct, indirect, special, incidental, or consequential (including, but not limited to, lost profits or business opportunity), regardless of the legal or equitable theory asserted, including, but not limited to, warranty, contract, negligence, or strict liability.
