

3M Science.
Applied to Life.™

The 3M™ Snap™ Therapy System makes a difference in patients' quality of life, without being visible.

The Snap Therapy System is indicated for patients who would benefit from wound management via the application of negative pressure, particularly as the device may promote wound healing through the removal of small amounts of excess exudate, infectious material, and tissue debris.

The Snap Therapy System is indicated for removal of small amounts of exudate from:

For more information about the Snap Therapy System, contact your local representative.

NOTE: Specific indications, contraindications, warnings, precautions and safety information exist for these products and therapies. Please consult a physician and product instructions for use prior to application. Rx only.
