

Instantly Remove Microbes

Remove **99.9%** of microbes from hard, nonporous surfaces using only water and 3M™ Instant Microbe Removing Wipes

..... Just add water

A Microbe Removal Study was conducted

1 Remove 99.9% of microbes

A third-party study conducted during development evaluated the removal of bacteria from a surface.

Standard wipes

71,000

bacteria remain

3M Instant Microbe Removing wipes

8

bacteria remain

2 Reduce cross contamination

A 3M study evaluated microbe transfer from one surface to another.

Standard wipes

22,000

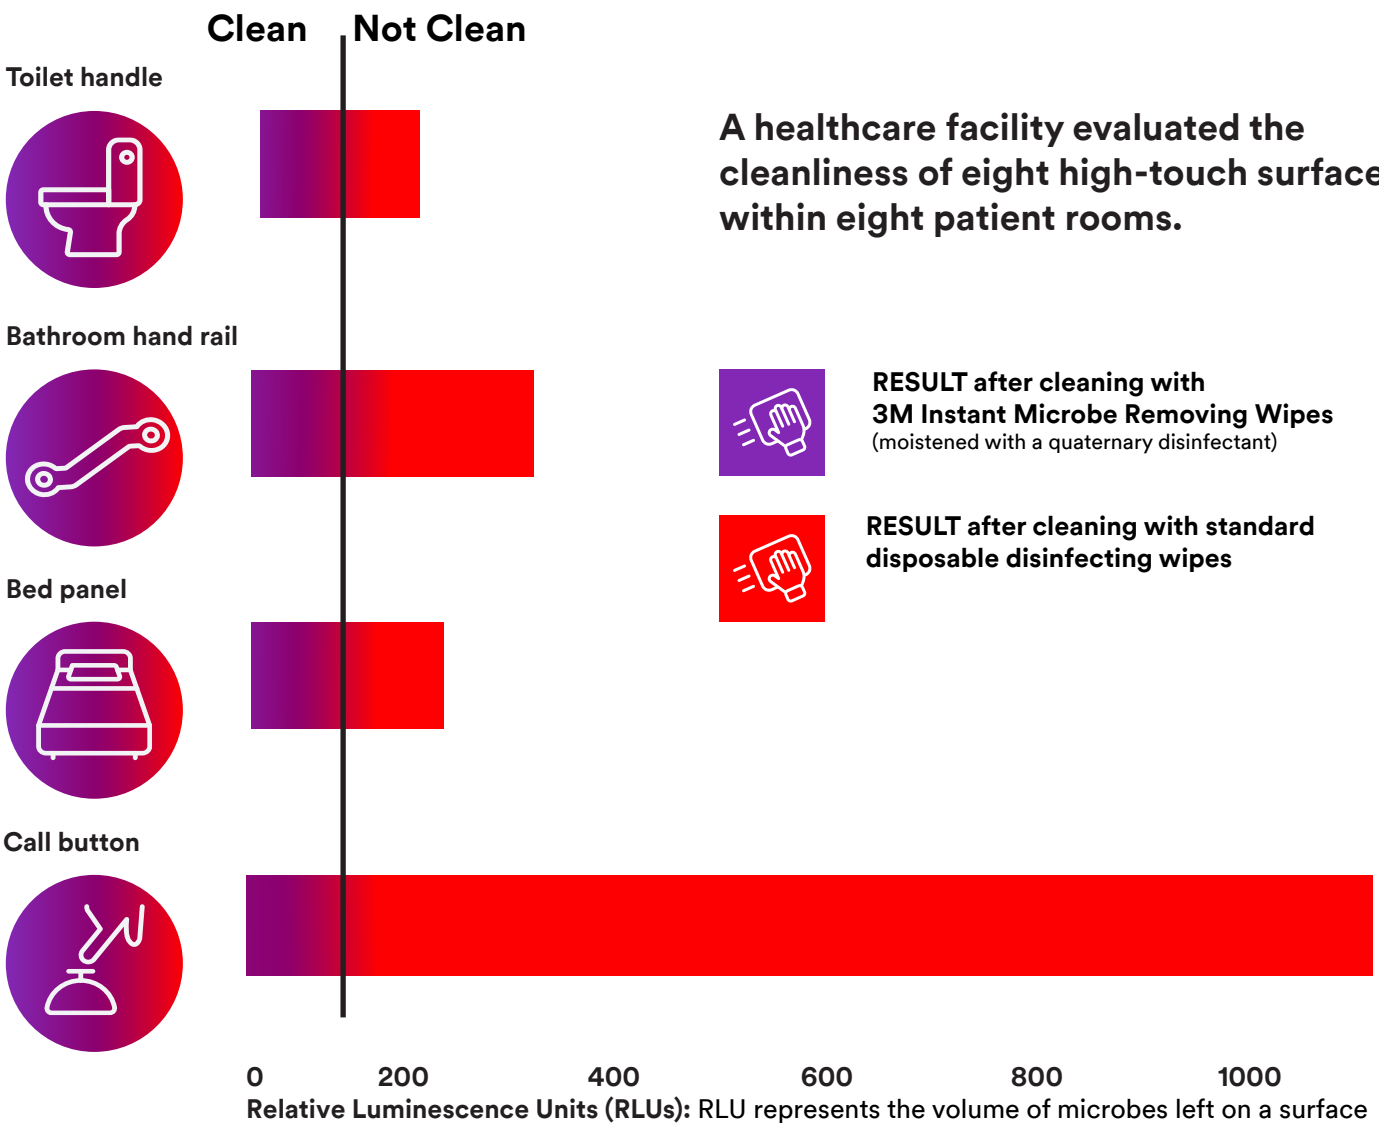

bacteria transferred

3M Instant Microbe Removing wipes

600

bacteria transferred

3 Cleaner where it counts

Trap, hold and remove microbes with no surface degradation

Choose a solution that works only with water, eliminating the need for adding chemicals – no chemical smell or PPE required.

Applications

Transport

Restaurants

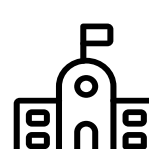

Offices

Retail

Hospitality

Schools
