

Two great options to optimize sign protection.

Help protect your signs from damage with 3M™ Protective Overlay Film Series 1160i and 3M™ ElectroCut Film Series 1170C.

Dual durability options for digitally printed signs.

These films are an easy and cost-effective way to help your signs shine.

3M™ Protective Overlay Film Series 1160i

Keep your signs looking new while protecting them from costly graffiti damage with Series 1160i. Rest easy knowing that signs vandalized by common graffiti can be cleaned and restored to save on replacement costs and that you're getting UV protection to help resist degradation of the ink and reflective sheeting.

3M™ ElectroCut Film Series 1170C

Get UV protection to help your signs resist fading or discolouring over time with Series 1170C. This film helps protect the ink and reflective sheeting in digitally imaged sign faces against degradation.

	Digital Printing Overlamine Protection	UV Protection	Graffiti Protection
3M™ Protective Overlay Film Series 1160i	X	X	X
3M™ ElectroCut Film Series 1170C	X	X	

Maximize the Life of your signs.

Protecting your signs from the real-world conditions they'll be exposed to will help save on replacement costs.

Apply with ease.

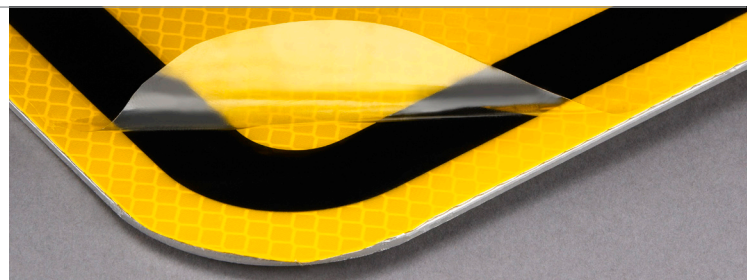

It's quick and easy to apply using either a hand squeeze or roll-to-roll laminator.

3M™ MCS™ Warranty

3M™ MCS™ Warranty

Backed by 3M's MCS™ Warranty to ensure the overlay and sign are compatible and will perform for the life of the base reflective sheeting's warranty.
