

Safety Training

e-learning powered by 3M

You decide when and where.

3M Safety Training offers you a comprehensive suite of functional, professional and state-of-the-art fall protection training courses. Our immersive courses allow your teams to prepare for the diverse demands of their jobs, alone or in a team. Practical training components can be completed at one of our training centers or in your own work environment. The choice is yours.

#scienceofsafety
