Dave

Global Subject Matter Expert
– Defence and Public Safety

I am a global specialist in Extreme Hazards that could disrupt, damage or destroy a country's defence and public safety systems, such as a nuclear accident.

I provide technical leadership to help my company develop innovative safety solutions to meet the changing needs of customers in these industries.

Qualification Needed

Diploma or Bachelor's Degree in Education and Training

I provide technical and academic support to a wide range of people from different countries and cultures. What do you think some of the challenges may be?

"Holding high level security clearances, I support national and international agencies with their product and training needs for defence and security applications."

Years of Experience 25+
