

CAREER CAPERS

Romy

Sustainability Manager

I work with R&D and manufacturing colleagues to bring sustainability thinking to design and processes - reducing waste, carbon, water and energy.

Our targets and performance are reported annually to show progress towards 'net zero emissions'. I support marketing strategy, social media and external events, translating technical content into everyday language.

"My role helps to future-proof our business as well as doing good work in the community."

Qualification Needed

BSc Chemistry, Geography or Environmental Sciences with Business

What can companies do to ensure they achieve 'net zero emissions' by 2050 or sooner?
