## Sarah

**Technical Manager**  
– Tapes and Adhesives

I lead a team of scientists and engineers who help our transportation customers to stick stuff together!

They help design engineers to choose, test and use the right adhesives to join metal, wood, plastics and other materials together on trains, planes, cars, buses and special vehicles, like ambulances.

**Qualification Needed**

Bachelor of Science or Engineering Degree  
useful but not essential

*How do you think adhesives might be used in the construction of racing cars and aeroplanes?*

*"The amazing, diverse team that I work with are based all over the world. Between them, they speak more than ten different languages."*

**Years of Experience** 15+

**Managerial Team Size** 10+

**Social Responsibility** 7

**Practical Skills** 20%

**Academic Skills** 80%
