## Simon

### IT Infrastructure Manager

I lead a team across Europe, Middle East and Africa that provides IT services to employees across the region. This includes PCs, servers, networks, telecommunications and cyber security systems.

Virtual meeting tools provided by my team dramatically reduce the need for employees to travel, thereby supporting my company's sustainability goals.

**Qualification Needed**

Bachelor of Science in Computer Science or related subject

*How many cyber-attack attempts do you think a multi-national blue-chip company might receive per year?*

**Years of Experience**

5+

**Managerial Team Size**

120

**Social Responsibility**

7

**Practical Skills**

25%

**Academic Skills**

75%

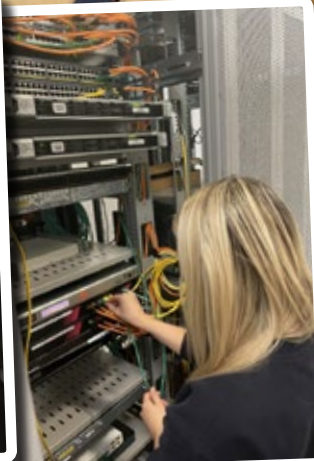

*"I work in a global, multi-cultural team with colleagues in most countries around the world. I love it when diverse cultures work together to deliver fantastic projects."*
