Tina

Business Manager and Master Black Belt

Lean Six Sigma is a scientific method used to continuously improve a company's performance. I manage a team of employees (Six Sigma Black Belts)

who assess business processes and design better ways of working that eliminate waste and inefficiencies.

My role involves teamwork, data analysis using complex tools, communication and problem solving.

**Qualification
Needed**

Bachelor's Degree
in Business
Management

Why do you think it is important that companies use a scientific approach to improve how they work?
