

Limited Warranty

Subject to the terms below 3M warrants to the end user of 3M™ Building Window Film (“the Product”) for the project identified in the fully completed Record of Installation (as defined below) against peeling, cracking, crazing or delamination (“Defects”) for the periods set out in the table below.

This Warranty is only valid where:

- The appropriate Product has been selected for the relevant application based on 3M technical bulletins and guidance; and
- The Product has been applied, maintained and cleaned strictly in accordance with the instructions as outlined in the 3M Window Film Wet Installation Instruction Bulletin; and
- The Record of Installation was fully completed and signed at the time of completion of the installation and this is supplied along with any notice of defect; and
- 3M™ glass check analysis has been performed where applicable and documented with the Record of Installation; and
- The customer notifies the 3M Window Film Dealer or Installer in writing within one month of the Defect appearing. Documents required include the completed Record of Installation, Glass Check analysis if appropriate, sample of material with defect and/or photos of the Defect.

This Warranty is not valid where:

- It is made outside the relevant Warranty Period; or
- The Record of Installation was not fully completed and signed at the time of completion of the installation; or
- The Product is removed by the customer before 3M or the 3M Window Film Dealer or Installer have inspected a reported Defect; or
- The failure is due to a glass or a framing system failure; or
- The Product has been modified or repaired by a person not authorized by 3M; or
- The Product has been subjected to abnormal use, misuse or neglect; or
- The Product has not been installed in line with the installation guidelines recommended in the 3M Building Window Film Installation Instruction Bulletin; or
- 3M™ glass check analysis has not been performed where applicable and documented with the Record of Installation; or
- The Defect is due to a lack of, or improper maintenance and cleaning not in conjunction with 3M’s recommendations; or
- The Product was more than 5 years old since the date of manufacturing before it was installed; or

- Prior to the installation, the Product was not stored in its original packaging nor under the environmental conditions as recommended by 3M.

Other than as provided by law or regulation this Warranty is given in place of and excludes all other warranties and conditions, whether expressed or implied by statute or common law. Other than the Limited Remedy below 3M shall not be liable for any direct, indirect or consequential loss or damage whatsoever whether arising from the supply of the product, its use, from any defect or failure in its performance or in any other way.

Many factors beyond 3M's control and uniquely within the user's knowledge and control can affect the use and performance of a Product in a particular application. Given the variety of factors that can affect the use and performance of a Product, the user is solely responsible for evaluating the Product and determining whether it is fit for a particular purpose, suitable for user's method of application and will fulfil the local law for windows. All issues regarding warranty and liability for the product and the effect of its use are governed in accordance with the provisions of the appropriate contract of sale unless local laws dictate otherwise.

Limited Remedy

3M's entire liability in the event of a valid Warranty claim shall be limited to refund of the price paid to 3M of the Product which 3M accepts was Defective. If the project is carried out by a 3M Select Partner, users will qualify for the Select Program Warranty terms which may include compensation for product and certain labour costs. 3M shall have no liability for any other losses or damages howsoever arising.

* Edge sealing is mandatory for warranty on these products. Edge sealer options include, 3M™ Hybrid Adhesive 760, 3M™ Edge Sealing Tape 3695A, 3M™ Edge Sealer 4150S. Neutral cured, UV stabilized silicones from other suppliers may be used to edge-seal 3M™ Building Window Films. However, the silicone itself will not be covered under this warranty.

** Edge sealing is only mandatory on edges that could be exposed to pooling of water or snow.
