

3M **Scotch®** Reclosable Acrylic Box Sealing Tape 8369

Product Data Sheet

November 2021
Supersedes: N/A

Product Description

Scotch® Tape 8369 is a low noise tape consisting of bi-axially orientated polypropylene carrier film (BOPP) and an acrylate-based dispersion adhesive. This construction offers good closures on heavyweight cartons exposed to normal environmental conditions.

Applications

Scotch® Reclosable Acrylic Box Sealing Tape 8369 is available in system length. It is a low adhesion tape to allow closure and reclosing of packaging bags.

Construction

Adhesive Type	Acrylic
Backing	BOPP
Backing Thickness	0.05 mm
Total Thickness AFERA 5006	0.076 mm
Colour	Clear

Performance Characteristics

Adhesion to Stainless Steel AFERA 5001	2.4 N/cm
Tensile Strength AFERA 5004	61 N/cm
Elongation at Break AFERA 5004	171 %

Storage & Shelf Life

Store at 16 °C - 25 °C and 40 - 65 % relative humidity in its original box. The product can be stored up to 12 months after production.

Note: The shelf life may be shortened if the original packaging is not properly sealed or stored in an environment with high temperatures or humidity

Important Notice

All statements, technical information and recommendations contained in this document are based upon tests or experience that 3M believes are reliable. However, many factors beyond 3M's control can affect the use and performance of a 3M product in a particular application, including the conditions under which the product is used and the time and environmental conditions in which the product is expected to perform. Since these factors are uniquely within the user's knowledge and control, it is essential that the user evaluate the 3M product to determine whether it is fit for a particular purpose and suitable for the user's method or application.

All questions of liability relating to this product are governed by the terms of the sale subject, where applicable, to the prevailing law

Values presented have been determined by standard test methods and are average values not to be used for specification purposes. Our recommendations on the use of our products are based on tests believed to be reliable but we would ask that you conduct your own tests to determine their suitability for your applications. This is because 3M cannot accept any responsibility or liability direct or consequential for loss or damage caused as a result of our recommendations
