The ACTIV.A.C.™ Therapy Unit is portable Negative Pressure Wound Therapy designed for the ambulatory patient

The features of this ergonomically designed therapy unit include:

For the patient

- Lightweight. Weighs only 2.4 pounds
- Small size with a low profile that can be worn close to the body
- Easy-to-use, single-touch therapy on/off operation
- Alarm notifications that are easy to recognize and correct
- Easy, quick release 300ml canister
- 14-hour battery for activities of daily living

For the clinician

SENSAT.R.A.C.™ Technology

Only 3M+KCI V.A.C.® Therapy Devices provide patented SENSAT.R.A.C.™ Technology, a real time pressure feedback system.

- Adjusts pump output to the wound site, compensating for wound distance, wound position, exudate characteristics, and patient movement
- Delivers & maintain programmed negative pressure for wound management at the wound site

SEAL CHECK™ Feature

- Instant Feedback. Audio and visual cues are delivered in real-time, allowing easy location of dressing leaks
- Enhanced Therapy Confidence. A proper seal helps maintain programmed therapy at the wound site
- Possible Reduction of Unscheduled Visits. Easier for clinicians to help troubleshoot problems over the phone

Settings Guide

Recommended therapy settings and pressure ranges are pre-programmed for indicated wound types:

- Easy Set Up. With pre-programmed settings by wound type, clinicians can initiate therapy quickly and efficiently
- Ease of Use. Intuitive control functions make it easier to use, especially for clinicians who are not as familiar with V.A.C.® Therapy

Therapy History Reporting

Document Patient Compliance with V.A.C.® Therapy.

- Monitors therapy usage, settings, durations, and dressing and canister changes to help ensure patients are receiving the prescribed course of therapy
- USB port for convenient data downloads.

Simplified Touch Screen

Enhanced, simplified control functions:

- Easy Navigation. With full-color interface with intuitive touch screen controls
- Simplified Patient Mode. Designed to be easy to use and understand

V.A.C.® Therapy Dressing Options with SENSAT.R.A.C.™ Technology

Specially designed dressings, because no two wounds are alike.

V.A.C.® GRANUFOAM™ Dressing

An advanced wound dressing to promote granulation tissue formation and exudate removal

- Can be easily trimmed to fit the contours of deep or irregularly shaped wounds
- Can be customized for bridging techniques when treating multiple wounds

V.A.C.® WHITEFOAM™ Dressing

A comfortable and versatile wound dressing

May be used over split thickness skin grafts

- Helps bolster flap and graft
- Higher tensile strength (than V.A.C.® GRANUFOAM™ Dressing) allows for easy removal from tunnels and undermining
- Recommended in situations where hypergranulation responses are likely

V.A.C.® GRANUFOAM™ Bridge Dressing Family

Ideal for use with wounds in pressure sensitive areas that requiring bridging

- Preassembled components specifically designed to simplify dressing application
- Integrated bridge allows for SENSAT.R.A.C.™ Pad placement away from the wound site
- Wicking layers help ensure intact skin stays dry
- Allows V.A.C.® Therapy to be used in conjunction with off-loading therapies

SENSAT.R.A.C.™ Pad

Only SENSAT.R.A.C.™ Technology actively measures, monitors, and manages the accurate delivery of the physician's programmed therapy to the wound site.

- Designed with patient comfort in mind
- Flexible pad material for easy application over body contours
- Discreet, low profile design
