Fire Protection Products
3M™ Fire Barrier Cast-In Devices and Adapters

Technical Data Sheet

November / 2021

Product Description
3M™ Fire Barrier Cast-In Devices for Metal Pipes and 3M™ Fire Barrier Cast-In Devices for Plastic Pipes (3M™ MCID, 3M™ PCID) consist of a one-piece plastic body assembly used primarily in new construction. The devices are designed to accommodate concrete floor thicknesses from 2-1/2 in. (64 mm) up to 8 in. (203 mm). 3M™ Fire Barrier Cast-In Devices (3M™ MCID, 3M™ PCID) can accommodate a single or multiple metallic or non-metallic pipe size ranging from nominal 1-1/2 in. (48.3 mm actual) up to 6 in. (168.3 mm actual) diameter.

3M™ Fire Barrier Cast-In Devices (3M™ MCID, 3M™ PCID) can accommodate diverse applications when combined with the following accessories:

- **3M™ Fire Barrier Cast-In Height Adapter**
  Accommodates concrete floor thickness greater than 8 in,

- **3M™ Fire Barrier Cast-In Metal Deck Adapter**
  Accommodates concrete over fluted metal deck assemblies

- **3M™ Fire Barrier Cast-In Tub Box Adapter**
  Accommodates a tub/shower or other plumbing piping assembly in conjunction with the 2 in. MCID or PCID.

Product Features
- Available for plastic and metal pipes
- Adjustable body with the use of pliers
- Accommodates concrete floor thicknesses as thin as 2-1/2 in. (64mm)
- Facilitates pipe installation from top or bottom side
- Red color. Easy to identify as a firestop device
- Color coded caps to allow for identification: black for metal, white for plastic
- Tested in accordance with ASTM E814/UL 1479 and CAN/ULC-S115
- Reduces labor time

Applications
3M™ Fire Barrier Cast-In Devices for Metallic Pipes and 3M™ Fire Barrier Cast-In Devices for Plastic Pipes (3M™ MCID, 3M™ PCID) are used to firestop metallic and non-metallic penetrating items through concrete floor assemblies rated up to 3 Hr.

3M™ Fire Barrier Cast-In Devices (3M™ MCID, 3M™ PCID) may be applied to drain, waste and vented (open) or process/supply (closed) pipe systems. See manufacturer’s instruction sheet supplied with each device and reference third party tested and listed systems for exact type of pipes covered and hourly ratings.
Specifications

Installation shall be in strict accordance with manufacturer's written instructions, as shown on approved shop drawings. When properly installed, these through-penetration firestops prevent the spread of fire, smoke and toxic gases, helping maintain the original fire resistance rating of the construction assembly that has been penetrated.

3M™ Fire Barrier Cast-In Devices shall be used in conjunction with 3M™ Fire Barrier Cast-In Device Adapters. 3M™ Fire Barrier Cast-In Devices and Adapters shall be listed by independent test agencies such as UL, Intertek, or FM and shall be tested under the pass/fail requirements of ASTM E814 (UL 1479) Standard Test Method for Fire Tests of Penetration Firestop Systems or CAN/ULC-S115 Standard Method of Fire Tests of Firestop Systems. Suitability for the intended application should be determined prior to installation.

Installation Techniques

Equipment: 3M™ Fire Barrier Cast-In Devices and Adapters may be installed using the following tools: nails, wood or metal screws, pliers, reciprocating saw (3M™ Fire Barrier Cast-In Metal Deck Adapter only), oxyacetylene torch or similar device (3M™ Fire Barrier Cast-In Metal Deck Adapter only). See installation details below.
3M Fire Protection Products
3M™ Fire Barrier Cast-In Place Devices and Adapters

3M™ Fire Barrier Cast-In Devices (3M™ MCID, 3M™ PCID)

Step 1: Adjust to concrete pour depth
Step 2: Place, attach and cap
Step 3: Pour concrete

Step 4: Remove form and knock out cap
Step 5: Install pipe
1. Cut opening in deck and remove cut section of deck such that metal deck adaptor can sit flush on deck

2. Secure metal deck Adaptor to metal deck

3. Snap cast-in device onto metal deck adaptor

4. If required, adjust cast-in device to height of concrete pour (by hand or with pliers)

5. Use hammer to knock out device cap and install penetrant to complete assembly

3M™ Fire Barrier Cast-In Metal Deck Adapter
3M™ Fire Barrier Cast-In Tub Box Adapter

Adjust CID and tub box leg

Pour concrete

Remove form

Attach leg to TB and CID to TB, position and attach assembly

Install pipe - complete assembly
**Limitations:** It is recommended that 3M™ Fire Barrier Cast-In Devices and Adapters are applied when the product is at a temperature between 40°F (4°C) and 110°F (43°C). It is recommended that 3M™ Fire Barrier Cast-In Devices and Adapters be applied when the ambient air temperature is 32°F (0°C) or higher. For optimal results, 3M™ Fire Barrier Cast-In Devices and Adapters must be installed before concrete is poured.

Consult a 3M Authorized Fire Protection Products Distributor Sales Representative for applicable UL, cUL, ULC, Intertek or other third-party drawings and system details.

<tbody>
<tr>
<td><strong>Maintenance</strong></td>
<td>No maintenance is expected to be required when 3M™ Fire Barrier Cast-In Place Devices and Adapters are installed in accordance with manufacturer’s installation instructions. Once installed, if 3M™ Fire Barrier Cast-In Place Devices and Adapters are damaged, the following procedure will apply, damaged device must be removed and replaced with new product.</td>
</tr>
<tr>
<td><strong>Storage and Shelf Life</strong></td>
<td>3M™ Fire Barrier Cast-In Devices and Adapters should be stored indoor in dry conditions. It is recommended that the product remains in heated storage above 40°F (4°C) prior to installation. 3M™ Fire Barrier Cast-In Devices and Adapters shelf life is indefinite when stored indoor in dry conditions above 40°F (4°C) and below 100°F (38°C).</td>

<tr>
<td><strong>Availability</strong></td>
<td>Available from 3M Authorized Fire Protection Products Distributors. For additional technical and purchasing information, call 1-800-328-1687 or visit 3M.com/firestop.</td>
</tr>
<tr>
<td><strong>Safe Handling</strong></td>
<td>Consult Safety Data Sheet prior to handling and disposing of 3M™ Fire Barrier Cast-In Devices and Adapters.</td>
</tr>
<tr>
<td><strong>Technical Information</strong></td>
<td>The technical information, guidance, and other statements contained in this document or otherwise provided by 3M are based upon records, tests, or experience that 3M believes to be reliable, but the accuracy, completeness, and representative nature of such information is not guaranteed. Such information is intended for people with knowledge and technical skills sufficient to assess and apply their own informed judgment to the information. No license under any 3M or third party intellectual property rights is granted or implied with this information.</td>
</tr>
<tr>
<td><strong>Product Selection and Use</strong></td>
<td>Many factors beyond 3M’s control and uniquely within user’s knowledge and control can affect the use and performance of a 3M product in a particular application. As a result, customer is solely responsible for evaluating the product and determining whether it is appropriate and suitable for customer’s application, including conducting a workplace hazard assessment and reviewing all applicable regulations and standards (e.g., OSHA, ANSI, etc.). Failure to properly evaluate, select, and use a 3M product in accordance with all applicable instructions and with appropriate safety equipment, or to meet all applicable safety regulations, may result in injury, sickness, death, and/or harm to property.</td>
</tr>
<tr>
<td><strong>Warranty, Limited Remedy and Disclaimer</strong></td>
<td>Unless a different warranty is specifically stated on the applicable 3M product packaging or product literature (in which case such warranty governs), 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ARISING OUT OF A COURSE OF DEALING, CUSTOM, OR USAGE OF TRADE. If a 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M’s option, replacement or repair of the 3M product or refund of the purchase price. Warranty claims must be made within one (1) year from the date of 3M’s shipment.</td>
</tr>
<tr>
<td><strong>Limitation of Liability</strong></td>
<td>Except for the limited remedy stated above, and except to the extent prohibited by applicable law, 3M will not be liable for any loss or damage arising from or related to the 3M product, whether direct, indirect, special, incidental, or consequential (including, but not limited to, lost profits or business opportunity), regardless of the legal or equitable theory asserted, including, but not limited to, warranty, contract, negligence, or strict liability.</td>
</tr>
<tr>
<td><strong>Disclaimer</strong></td>
<td>3M industrial and occupational products are intended, labeled, and packaged for sale to trained industrial and occupational customers for workplace use. Unless specifically stated otherwise on the applicable product packaging or literature, these products are not intended, labeled, or packaged for sale to or use by consumers (e.g., for home, personal, primary or secondary school, recreational/sporting, or other uses not described in the applicable product packaging or literature), and must be selected and used in compliance with applicable health and safety regulations and standards (e.g., U.S. OSHA, ANSI), as well as all product literature, user instructions, warnings, and other limitations, and the user must take any action required under any recall, field action or other product use notice. Misuse of 3M industrial and occupational products may result in injury, sickness, death, or property damage. For help with product selection and use, consult your on-site safety professional, industrial hygienist, or other subject matter expert.
