

Scotch-Brick™ Griddle Scrubber

Ref. 9537

Date: July 2021

Description:

Scotch-Brick™ Griddle Scrubber consists of a red handle stuck to a heavy duty non-woven abrasive cleaning pad forming a durable griddle cleaning tool.

Product Advantages:

- One-piece construction: no parts to assemble, easy to use.
- Heat resistant: can be used on hot griddles in operation. Recommended temperature is 100-1500°C.
- Protects hand from heat
- Aggressive, non-loading, long lasting.
- Resistant to conventional chemical cleaners.

Where and When to Use:

One-piece griddle cleaning tool designed to clean heavy duty debris from flat griddles at any temperature (both end of day and hot temperature interim cleanings).

Note: after end of day cleaning, a pad Ref 46 can be used under the Scotch-Brick Ref 9537 to remove small residues on the griddle surface (below 100°C).

Directions for Use:

- After scraping excess burnt foods, pour cooking oil on griddle (just to help dissolve residues) and clean with 9537 using push pull motion.
- Wipe out the debris.

Note: after end-of-day cleaning, Ref. 46 pad can be used under Ref. 9537 for polishing.

Maintenance:

- Rinse out the pad with hot water after each use.
- Deep embedded soil can be removed by brushing with a nylon brush.

Aggressiveness:

- Schiefer value = 4
- (extreme scouring power for burnt food removal)

Dimensions:

- Size: 101 x 152 x 76 mm
- Weight: 102 g per unit
