

Fall Protection

Product Discontinuation Notice

June, 2022

Dear Valued Customer,

3M™ Fall Protection is continuously investing in the development of innovative new safety solutions, and this commitment continues to drive the introduction of exciting new products. As 3M technology advances and new products become available, we continue to evaluate our existing portfolio offerings based on market trends and customer insights. This communication is to inform you, as part of our continued efforts to optimize the 3M™ Fall Protection portfolio, various products within the portfolio will be discontinued effective Aug 31, 2022, or while supplies last

Notification of Product Phase-in/Phase-out's and Discontinuations

- [Click here](#) for a list of in-scope products.
- Phase-in/Phase-out and Discontinuation— to assist with this transition, alternative replacement options are listed for your consideration.
- In addition, your local 3M teams of Sales, Application Engineering, and Customer Service professionals are available to assist with suggested alternatives to these discontinued products.

Please ensure you update your internal systems to avoid any disruptions, for example by replacing standing orders for discontinued products with orders for standard products.

3M strives to provide the highest value and performance Fall Protection solutions, and we trust that our ongoing portfolio efforts will serve you well. Should you have any further questions, please contact your local 3M Sales Representative or 3M Fall Protection Customer Service Representative at 1-800-328-6146.
