

3M™ M*Modal Fluency Go

- Spend more time interacting with patients by streamlining clinical documentation
- Dictate a compliant patient note immediately with access to EHR chart data, macros and templates
- Increase efficiency by using speech to enter all clinically relevant information in one, easy-to-navigate application

The 3M advantage

The combination of 3M and M*Modal allows us to use our strengths to close the loop between clinical care and revenue integrity.

Our advanced speech understanding solution is designed to optimize the EHR experience, drive higher quality documentation and enable physicians to spend more time with their patients.

Simplify and streamline documentation

Physicians spend nearly half their time on administrative work¹ and 37 percent of them believe this contributes to burnout². At the same time, physician practices struggle to contain costs, optimize the use of electronic health records (EHRs), reduce staff attrition and improve patient satisfaction and physician productivity.

To reduce the time clinicians spend trying to meet documentation requirements in a timely manner, 3M M*Modal offers a solution that helps improve patient-physician interactions while driving clinical documentation efficiencies and improving physician efficiency.

3M™ M*Modal Fluency Go is a mobile application that integrates with your EHR and supports the natural workflows of physicians. Designed to simplify and streamline physician documentation in the EHR, 3M Fluency Go empowers physicians with the flexibility and mobility to easily document patient visits. Busy physicians can use the mobile app on the go and choose the workflow that best meets their current needs, whether it's using front-end speech recognition with a simple interface or leaving the documenting to a back-end virtual scribe.

3M Fluency Go features:

Anywhere dictation

Intuitive design for streamlined documentation

Bi-directional input with the EHR

3M™ M*Modal Fluency Go

Create time to care

By untethering physicians from their desktops, 3M Fluency Go improves their ability to capture documentation quickly and efficiently from any location, at any time. This reduces the overall time physicians spend on capturing clinical notes—time that can instead be spent on seeing more patients.

Designed to meet the needs of physicians of any medical specialty in a practice of any size, 3M Fluency Go is cost effective, simple, easy to install and use.

Call today

For more information on how 3M products and services can assist your organization, contact your 3M sales representative, call us toll-free at **800-367-2447**, or visit us online at **www.3M.com/his**.

Drive outcomes

Users of this mobile solution have reported the following results³:

More time:

2+ hours saved
per clinic day

More patients:

10 more patients
seen per clinic day

More revenue:

\$10,000 per month
increase in revenue

3M Fluency Go's mobile documentation functionality gives doctors the comfort, control and confidence that the patient encounter can be easily and efficiently captured in the EHR so that they can focus on patient care.
