

A red car is shown in a paint booth, with large orange heat lamps illuminating it. The car is partially covered with a clear plastic protective sheet. The background shows the industrial structure of the paint booth.**Scotch®**

Masking Tape 2800

Masking performance that can take the heat.

Scotch® Masking Tape 2800 is easy to apply and is highly conformable even on challenging contours.

Unlike tapes that are prone to tracking and ghosting, Scotch® Masking Tape 2800's high temperature acrylic adhesive consistently delivers sharp paint lines and excellent color separation. Designed specifically for TPO (thermoplastic olefin) surface applications in auto, truck, marine, bus and rail, it also proved effective on painted metal and other substrates. Scotch® Masking Tape 2800 is compatible with most industrial paints and painting processes.

**3M**

Balanced conformity for superior masking. You'll experience the difference, every time.

Excellent performance in high temperature paint processes.

- ▶ **Conforms to surface contours** – provides superior masking on TPO (thermoplastic olefin) surfaces
- ▶ **Won't fail under high heat** – formulated for bake cycles up to 149° C for 30 minutes
- ▶ **Sharp lines every time** – removes cleanly: no residue, tracking, bleeding and resists ghosting
- ▶ **Wide paint compatibility** – specially designed to work with most industrial paints
- ▶ **Clean removal** – up to 7 days outdoors

Superior high temperature performance.

Sharp, accurate paint lines.

Mask with confidence

Translucent backing assists in placement and allows visual confirmation of adhesive wet out on surface.

Product	3M ID	Size	Color	Tape Structure (Backing/Adhesive)	Heat Resistance °C	Comments
Scotch®	7100280536	12 mm x 50 m	Blue	Plasticizer-Free	149° C	Clean removal up to
Masking Tape 2800	7100280538	19 mm x 50 m	(Translucent)	Polyolefin/Acrylic	(30 Minutes)	7 days outdoors
	7100281475	25 mm x 50 m

Product Selection and Use: Many factors beyond 3Ms control and uniquely within users knowledge and control can affect the use and performance of a 3M product in a particular application. As a result, customer is solely responsible for evaluating the product and determining whether it is appropriate and suitable for customers application, including conducting a workplace hazard assessment and reviewing all applicable regulations and standards (e.g., OSHA, ANSI, etc.). Failure to properly evaluate, select, and use a 3M product and appropriate safety products, or to meet all applicable safety regulations, may result in injury, sickness, death, and/or harm to property.

Warranty, Limited Remedy, and Disclaimer: Unless a different warranty is specifically stated on the applicable 3M product packaging or product literature (in which case such warranty governs), 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ARISING OUT OF A COURSE OF DEALING, CUSTOM, OR USAGE OF TRADE. If a 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3Ms option, replacement of the 3M product or refund of the purchase price.

Limitation of Liability: Except for the limited remedy stated above, and except to the extent prohibited by law, 3M will not be liable for any loss or damage arising from or related to the 3M product, whether direct, indirect, special, incidental, or consequential (including, but not limited to, lost profits or business opportunity), regardless of the legal or equitable theory asserted, including, but not limited to, warranty, contract, negligence, or strict liability.
