**Purchase Orders**

Your company may continue to transact with 3M with various types of purchase orders. Please note the following:

- **USMMM format:** continue to process these orders per your current process and eCommerce tools unless specifically instructed otherwise.
- **All Numeric format:** new 3M purchase orders may be created beginning on the *Purchase Orders Begin* date in the table below. If you are using an eCommerce tool which requires you to login via your web browser, please ensure you look for new POs in the All Numeric format. Review all new 3M POs carefully.
- **Open PO Cross-reference:** Some POs which are open at the time of deployment will be converted to new PO numbers. If this should be the case for your company, you will receive a cross-reference list showing the new PO number and its corresponding old PO number. In the event of converted POs, ship against the new PO number only.
- **Questions regarding Purchase Orders:** Direct all questions regarding POs to the buyer listed on the PO.

**Shipments**

- Shipments to this location after the date listed in the *Shipment Receiving Ends* column in the table below **will not be received**. Do not ship products for arrival at this location between the dates listed below.
- **The dates below may vary based on ramp-down/ramp-up schedule; additional instructions may be provided by your 3M contact.**
- When shipping resumes, it is important that you are careful to ship against the proper PO number per note above.
