

January 6, 2023

Dear Supplier,

3M continues to transform our company, focusing on improving speed and agility to enable both of our companies to enhance growth. As we communicated previously in our Enterprise Resource Planning (ERP) announcement, this notification is part of our effort to ensure you are ready to transact with us in new ways as we continue to deploy our new ERP.

On November 11, 2022 we communicated that the following sites would deploy on our new ERP on February 1, 2023.

PLANT NAME	PLANT ADDRESS	NEW ERP PLANT CODE
CLINTON, TN	400 JD Yarnell Industrial Parkway, Clinton, TN 37716	1109
HARTFORD CITY, IN	0304 S 075 E, Hartford City, IN 47348	1027
ST. PAUL, MN DC	1927 Case Ave E, St. Paul, MN 55119	1077
VALLEY, NE	600 East Meigs Street, Valley, NE 68064	1047

However, after careful deliberation we have determined it is the best path forward that the **Valley, NE** site will not be included in the deployment on February 1, 2023. The Valley site will continue transacting with suppliers in the current manner. If you supply one of the other sites listed, please continue to prepare as described in the November 11, 2022 communication.

We appreciate your understanding regarding this change. 3M has not yet determined a new date for the Valley site to move to our new ERP. When the timing of that deployment is clear, there will be similar communications as the ones you've received thus far.

Please refer to [3M.com/SupplierDirect](https://www.3m.com/SupplierDirect) and look under US ERP Deployment to review the Supplier Toolkit and additional information regarding deployed locations in the U.S.

Questions?

- Purchase Orders/invoices: to the Buyer listed on the 3M PO
- All others: refer to the Supplier Toolkit for information and additional contacts

Sincerely,

Rhondia Turano
Senior Vice President, Strategic Sourcing & Packaging Solutions
