

Introducing the new

3M™ PPS™ Series 2.0 Vented Spray Cup System

Ready-to-go for painters on the go.

When high standards are the expectation, you need equipment that delivers consistent results. Introducing the 3M™ PPS™ Series 2.0 Vented Spray Cup System - bringing the advantages you expect from a premium vented cup with the proven technology of the first disposable spray cup system in the world.

Ready to Use Instantly

When speed and efficiency are vital, grab-and-go tools can make all the difference. With built-in filters and ready-to-use vents, minimal assembly is required before stepping into the booth.

Consistent Material Flow

Quality paint jobs matter, especially when your reputation is on the line. From start to finish, these vented spray cups provide a consistent material flow, even down to the final ounces (mL).

Confident Cup Design

Make the most of your time in the booth by using our largest cup (32 oz / 950mL) – one of four different sizes available. A sturdy but flexible cup design allows you to put your mind at ease when temporarily storing leftover paint. With no reusable parts, it's like spraying with a new cup every time.

Paint Application Expanded

When you buy into 3M Science, you are getting innovation, performance, and efficiency. These threads are carried all the way through our products for the paint shop, allowing you to choose the right tools for the job. With a premium spray gun, disposable lined spray cups, removable nozzles – and now vented spray cups – 3M's suite of paint application tools is truly unmatched.

Product Selection and Use: Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. As a result, customer is solely responsible for proper evaluation (including, but not limited to, fitness for purpose and suitability of application), selection, and use of 3M products. Safety products should always be selected and used in accordance with all applicable regulations and standards (e.g., OSHA, ANSI, and others), after conducting a proper hazard assessment. Failure to properly evaluate, select, and use a 3M product may result in injury, sickness, death, and/or harm to property. Dispose of used atomizing heads, residual paint/coatings, used containers/materials, and PPS in accordance with local regulations.

Warranty, Limited Remedy, and Disclaimer: Unless a different warranty is specifically stated on the applicable 3M product packaging or product literature (in which case such warranty governs), 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ARISING OUT OF A COURSE OF DEALING, CUSTOM, OR USAGE OF TRADE. If the 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price.

Limitation of Liability: Except for the limited remedy stated above, and except to the extent prohibited by law, 3M will not be liable for any loss or damage arising from the 3M product, whether direct, indirect, special, incidental, or consequential (including, but not limited to, lost profits or business opportunity), regardless of the legal or equitable theory asserted, including, but not limited to, warranty, contract, negligence, or strict liability.

Disclaimer: 3M industrial and occupational products are intended, labeled, and packaged for sale to trained industrial and occupational customers for workplace use. Unless specifically stated otherwise on the applicable product packaging or literature, these products are not intended, labeled, or packaged for sale to or use by consumers (e.g., for home, personal, primary or secondary school, recreational/sporting, or other uses not described in the applicable product packaging or literature), and must be selected and used in compliance with applicable health and safety regulations and standards (e.g., U.S. OSHA, ANSI), as well as all product literature, user instructions, warnings, and limitations, and the user must take any action required under any recall, field action or other product use notice. Misuse of 3M industrial and occupational products may result in injury, sickness, or death. For help with product selection and use, consult your on-site safety professional, industrial hygienist, or other subject matter expert. For additional product information, visit www.3M.com.
