

HS4

Height Safety PFPE Inspector

Ratio

8 students to 1 instructor

Duration

1 day

Overview

People attending this course will be provided with the necessary information and knowledge required to satisfy part of the competency requirements for the statutory inspection of Personal Fall Protection Equipment (PFPE). Training covers legislation, standards, duties and responsibilities, equipment marking, key documentation and resources, record keeping, traceability, types of inspections, storage and disposal requirements. It involves extensive practical inspection of a wide variety of textile and metalware PFPE equipment.

On completion of training successful candidates will be able to implement a programme of periodic inspections for equipment used during work at height such as harnesses, lanyards, slings, carabiners, helmets, ropes etc.

Prerequisites

A working knowledge of the equipment being inspected.
Have an aptitude for the detailed inspection of equipment.

Who Should Attend

People responsible for carrying out recorded inspections of PFPE.
