**3M™ Electrical Construction Services
for Industrial and Commercial Projects**

**Right parts.
Right price.
Right on time.**

Save time, money, and effort with complimentary construction services and custom product kits from 3M.

Custom project support, on us.

Provide your medium-voltage project single line drawings (SLD) and cable schedule (for 5kV to 69 kV), and we'll offer you a total solution. You'll get high-quality support from start to finish, at no additional cost.

What are the benefits of using 3M Electrical Construction Services?

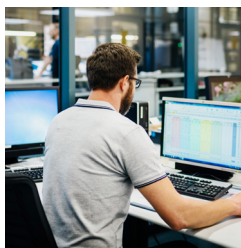

Helps you meet your construction timeline with early project engagement.

Helps you reduce material and labor costs with custom kits that provide exactly what you need for the job.

Helps you increase reliability and reduce quality issues by delivering the right products for each application.

Custom Take-Offs

Based on your documentation, we'll create a detailed medium-voltage cable accessory take-off to meet your project application requirements.

Direct On-Site Shipping

No need to pick anything up. No matter the project, we'll ship your kits directly to your jobsite.

Complete Kits

3M will assemble high-quality terminations, elbows, and splice kits at our ISO-9000 certified plant. We'll even include lugs and other hardware, so everything is packed in one box and ready to go with no need to order materials from other manufacturers.

Complimentary On-Site Installation Support and Training

You can't beat 3M's combination of industry expertise and product knowledge. Our experienced professionals will help you ensure your installation is done correctly the first time.

Custom Labeling

Save time on-site with boxes that come to you already labeled to correspond with their jobsite location. Each kit will be labeled to your specifications, allowing you to get the right product to the right place, helping eliminate errors.

Free On-Going Technical Support

Got questions or a tough application? Our team of knowledgeable engineers will provide you with solutions quickly and easily, so you can make sure your job stays on track, on time, and on budget.

To get started, contact your local 3M electrical sales representative, call 3M Customer Service at 800-245-3573, or visit [3M.com/electricalconstruction](https://www.3m.com/electricalconstruction)
