

3M Science.
Applied to Life.™

Two great options to optimise sign protection.

Help protect your signs from damage with 3M™ Protective Overlay Film Series 1160i and 3M™ ElectroCut™ Film Series 1170C.

Signage for illustration purposes only.

Dual durability options for digitally printed signs.

These films are an easy and cost-effective way to help your signs shine.

3M™ Protective Overlay Film Series 1160i

Keep your signs looking new while protecting them from costly graffiti damage with Series 1160i. Rest easy knowing that signs vandalised by common graffiti can be cleaned and restored to save on replacement costs and that you're getting UV protection to help resist degradation of the ink and reflective sheeting.

3M™ ElectroCut™ Film Series 1170C

Get UV protection to help your signs resist fading or discoloring over time with Series 1170C. This film helps protect the ink and reflective sheeting in digitally imaged sign faces against degradation.

	Digital Printing Overlamine Protection	UV Protection	Graffiti Protection

3M™ ElectroCut™ Film Series 1170C	✓	✓	

Maximise the Life of Your Signs

Protecting your signs from the real-world conditions they'll be exposed to will help save on replacement costs.

Apply with Ease

It's quick and easy to apply using either a hand squeeze or roll-to-roll laminator.

3M Diamond
Certified Manufacturer

3M™ Diamond Warranty

Backed by 3M's Diamond Warranty to ensure the overlay and sign are compatible and will perform for the life of the base reflective sheeting's warranty.
