

**Your
appointment
is almost here
– get excited!**

Questions? Get in touch with us today!

Get ready for your new smile!

Your second appointment is as easy as 1-2-3!

1. Your dentist will place the matrix and use it to create your custom-designed smile with dental composite.
2. Once the dental composite is placed, they'll remove the matrix before finishing and polishing the restoration for beautiful, natural-looking results.
3. You then walk out of the office with a new smile!

Your appointment is scheduled for:
