

Open the door to a new smile.

We're now offering an exciting procedure that's faster, easier and less invasive for closing gaps, correcting undersized teeth, and more.

Get ready to transform your smile.

This new procedure creates a custom-designed treatment that is faster and less invasive, so you can get a beautiful smile **in as little as two appointments!**

First appointment: Your dentist takes a digital impression of your smile.

Second appointment: Your dentist uses a matrix designed just for you, and you walk out with a new smile.

Benefits of this treatment

Natural-looking results

Less invasive

Durable

Affordable
