

3M™ Coban™ Self-Adherent Wrap

Non-Sterile
3M™ Coban™ Self-Adherent Wrap is a cohesive elastic wrap constructed from a nonwoven material and a cohesive proprietary adhesive wrap sticks to itself but not to other materials or skin. The product is supplied non-sterile.

Indications for Use:
3M™ Coban™ Self-Adherent Wrap is intended for use as an elastic wrap to provide compression or support, or to immobilize a limb or device. This product is not designed, sold or intended for use except as indicated.

Contraindications:
None known

1. Coban™ Self-Adherent Wrap will slip or loosen after application. DO NOT wrap too tightly to avoid restriction of circulation and to avoid excessive circulation to higher for pressure circulation.
2. Monitor area frequently (no less than every 24 hours) for signs of swelling, discoloration, pain, numbness or tingling. Coban™ Self-Adherent Wrap should be used as a temporary measure and contact your health care provider.
3. DO NOT use Coban™ Self-Adherent Wrap in direct contact with an open wound because it may lead to infection.

Caution
This product contains natural rubber latex which may cause allergic reaction.

Precautions
When used as a component in a compression wrap system, it is important to ensure adequate arterial blood flow to avoid injury secondary to decreased circulation. Coban™ Self-Adherent Wrap should be used as a component of a compression wrap system only under the supervision of a wound care specialist to ensure adequate arterial blood flow to avoid injury secondary to decreased circulation. Coban™ Self-Adherent Wrap should be used as a component of a compression wrap system only under the supervision of a wound care specialist to ensure adequate arterial blood flow to avoid injury secondary to decreased circulation.

Directions for Use:
1. Unroll approximately 12 inches (30 cm) of Coban™ Self-Adherent Wrap from the roll.
2. Without stretching, apply one full wrap and overlap. Press overlapped area lightly to keep the roll from peeling away.
3. Repeat with stretching, applying tension to the wrap only to obtain desired compression. Always unwind more Coban™ Self-Adherent Wrap from the roll before stretching. Do not stretch the wrap more than 100%.

Storage/ Shelf Life/ Disposal:
This product should be stored at room temperature. Avoid excessive heat and humidity. For best results, please contact your local 3M representative or contact us at 3M.com and select your country.
Do not use Coban™ Self-Adherent Wrap after the expiration date printed on the individual package. Coban™ Self-Adherent Wrap has a shelf life of 3 years from the date of manufacture.

Caution
This product contains natural rubber latex which may cause allergic reaction.

3M™ Coban™ Selbsthaftendes Vlies

Unsteril
Das 3M™ Coban™ selbsthaftende Vlies ist eine kohäsive elastische Bandage aus Materialen nicht tessuto und elastischer Fasern. Das Vlies haftet nur auf sich selbst und klebt nicht auf anderen Materialien oder auf der Haut. Das Produkt wird unsteril geliefert.

Indikationen für den Einsatz:
Das Coban™ selbsthaftende Vlies ist einsetzbar als Kompressions- und Stützbandage oder ein Verbande für elastische Verhüllungen. Dieses Produkt ist nicht für den angetragenen Einsatz bestimmt und wird ausschließlich zu den Zwecken verkauft.

Kontraindikationen:
Keine bekannt.

1. Coban™ Selbsthaftendes Vlies vermischt oder lockert sich nach der Applikation nicht. Wickeln Sie dieses Vlies NICHT zu eng, um eine ausreichende Durchblutung zu sorgen und Inflation zu vermeiden. Überprüfen Sie die Durchblutung häufiger als bei Kindern häufig.
2. Beobachten Sie das Aufbringen regelmäßig (spätestens alle 24 Stunden) in Bezug auf Schwellung, Verfärbung, Schmerzen, Taubheit oder Kribbeln.
3. Entfernen Sie das Vlies sofort bei Auftreten o.ä. Symptome und informieren Sie die zuständige Person über den Zustand.
4. Das Coban™ selbsthaftende Vlies darf wegen Infektionsrisiko NICHT in direktem Kontakt mit einer Wunde kommen.

Warnhinweise:
Dieses Produkt enthält Naturkautschuk und kann allergische Reaktionen hervorrufen.

Precautions:
Bei Einsatz als Teil eines Kompressionsverbandes ist für eine ausreichende arterielle Durchblutung zu sorgen, da es andernfalls zu Verletzungen infolge von mangelnder Durchblutung kommen kann. Die Verwendung des Coban™ selbsthaftenden Vlieses ist nicht für den Kontakt mit offenen Wunden vorgesehen. Aufwicht eines Wundplatzes vermeiden.

Modality of Use:
1. Svolgere circa 12 pollici (30 cm) di benda autoadesiva Coban™ dal rotolo.
2. Evitando eccessiva tensione, applicare un primo giro di benda a continuazione con un leggero sovrapporsi.
3. Ripetere il procedimento con tensione sufficiente per ottenere la compressione desiderata. Svolgere sempre la benda autoadesiva Coban™ dal rotolo prima di stendere la seconda.
