

In contrast to liquid markings, 3M Road Marking Tapes **optimise replacement cycles and save maintenance costs** over the life of the road.

Reliability on the whole line: 3M Road Marking Tapes deliver **consistent quality**, because **they're not assembled on-site like liquid markings**.

No mixing on-site, less dependence on applicator skills, easy to apply: 3M Road Marking Tapes, manufactured under constant quality control.

Time-saving and cost-efficient: In contrast to liquid markings, 3M Road Marking Tapes **can be applied during asphalt installation processes**.

Lower noise emission: 3M Road Marking Tapes provide **superior noise reduction compared to other marking systems** on same road surfaces.

Pavement Markings. The Advantages of Tape.

Are you looking for a more effective way to plan your infrastructure budget, while ensuring your roads guide cars and families home safely?
