

Registering for an Account on 3M™ Pattern Marketplace

This tutorial provides a step-by-step guide on how to create and activate an account for the 3M™ Pattern Marketplace.

Step by Step Instructions to Create an Account:

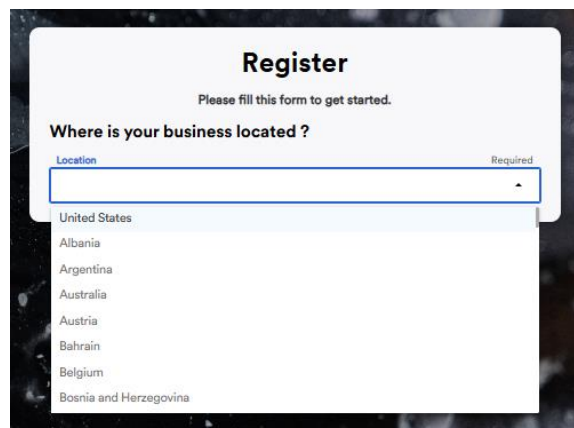

1

Navigate to patternmarketplace.3m.com and click the **Register** button.

2

Choose your location:

3

Fill out the required information on the registration form and click the [Register](#) button.

Note: The [Password](#) must contain at least one of each of the following: uppercase letter, lowercase letter, number, and special character.

For current 3M™ Pattern and Solutions Center (3M PSC) customers, use the same email address associated with your 3M PSC account.

4

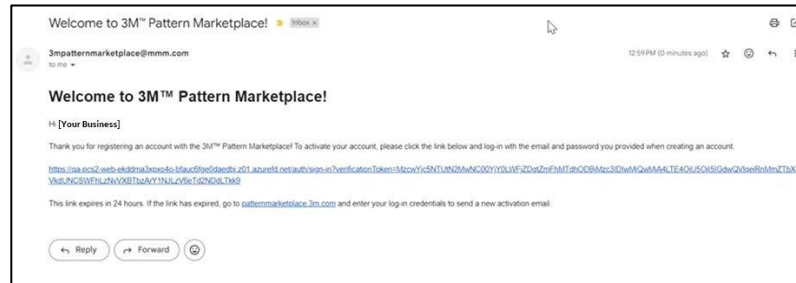

Note: We suggest adding 3mpatternmarketplace@mmm.com to your email address book/safe senders list/whitelisting it to reduce the likelihood of future emails being sent to your spam folder.

If you don't see an email arrive after a few minutes, and you have checked your spam folder, click the [Re-send email](#) button.

5

Click on the account activation link in the email. We recommend clicking on the email from your computer, not your mobile device, as you will be redirected to the 3M™ Pattern Marketplace home page to log in.

6

Enter your **Log-in credentials** (email and password you entered when creating an account). Your account with Pattern Marketplace has now been set up!

We recommend checking out the **Cut Agent Set Up** and **Pattern Editor** resources in the "Tutorials" tab of the support page for guides on how to access patterns and set up the 3M Cut Agent and your Plotter Devices.
