# We're making it easier to do business together

We are implementing a new global Enterprise Resource Planning (ERP) system, one that will link business processes, countries, people and information through a single, integrated platform. We value the relationship with our suppliers and strive to keep you informed about the changes you will see. In this document you will find clear, accessible details about upcoming changes.

This document and additional information regarding the Australia ERP Deployment may be found at [3M.com/Supplier Direct](https://www.3misrael.co.il/3M/en_IL/suppliers-direct/):

# eCommerce: Supplier collaboration

3M is expanding the use of eCommerce supplier collaboration tools and increasing our electronic trading relationships with suppliers. The use of eCommerce to transact business with 3M is expected.

**These tools will enable suppliers to view and transact electronically:**

- Purchase Orders (PO) – view, download or interface directly into a Supplier’s ERP system
- Purchase Order Acknowledgments (POA) – confirm and/or correct details of purchase orders
- Advanced Shipping Notices (ASN) – confirm details of shipment quantities and dates prior to shipment
- Invoices – send electronic invoices that match POs and actual shipments
- Electronic Funds Transfer – electronic payment of invoices via ACH or wire
- Online catalogs – supplier provided in collaboration with 3M

**The benefits to 3M and our suppliers will be:**

- Real-time communication and visibility of purchasing data
- Reduction in paper, manual data processing and lost paperwork
- Early identification and correction of errors in purchasing data
- Reduction in receiving and invoice match exception errors
- Improvement in data processing accuracy and efficiency
- Enable invoices to be paid on time

# eCommerce transaction requirements

## Current State

## Future State

### Purchase Order (PO)

- Supplier receives PO via email or
- No Purchase Order is created to make a purchase

- POs will be received by the Supplier via eCommerce tool: ARIBA/COUPA/SNC.

### Purchase Order Acknowledgement (POA)

- Supplier acknowledges the PO due date, price and quantity within 2 days via email/web portal or
- Supplier do not acknowledge receiving of Purchase order at all

- Supplier will send a POA via eCommerce to confirm receipt of the PO and agreement to the price, quantity, and due date listed on the PO.
- Any change to the PO, such as partial receipt or partial invoice requires a new POA.

### Advanced Shipping Notice (ASN)

- There is No ASN (Advance Shipping Notification) submission

- Suppliers must send the ASN prior to the shipment for POs which include 3M material identification numbers.

### Invoice

- Invoices submitted via email to GSC-AP
- Some supplier invoices submitted only to the Requester's email.

- Supplier invoice is submitted electronically via eCommerce tool.

### Payment Status

- Payment status is communicated via email.

- Payment status can be viewed via eCommerce tool.

## Future State

### PO Requested Delivery Dates

- PO due date with many different definitions across Business and supplier eg. ex-plant/port of export/ETA to 3M facilities.

- Due Date on PO will mean the date products are **due to arrive** at the 'Ship To' on the PO
- Have to do backward calculation to estimate goods need to be shipped out from manufacturing location after deduction In-transit LT.
- Make sure goods will arrive to 3M location as stated in the PO delivery date(More detail on slide 7 & 8)

### PO and Line Numbers

- PO number ranging from 6 to 9 digit
- PO line is according to numeric order continuous number e.g: 1,2,3.

- PO number will be 10 digit
- PO line numbers begin with 1 and increment by 10 (eg. 1, 10, 20, 30, 40). Additional lines added per change order increment by 1 (eg. 11, 12, 31)
- To indicate the correct PO and line number in Packing /shipping documents
- To indicate Legacy PO# and SAP PO# for PO are created before SAP Go Live

### 3M Material Numbers

- 3M Material Number is the 11- digit number stated on the PO.

- 3M materials will have a 10–digit format stated on the PO
- Both the old 11–digit (old SKU) and new 10–digit (SAP SKU) material numbers will be stated on the PO and should be included in the description on your invoice and shipping documents.
- Reprint the label with SAP SKU upon SAP Go Live date

- Net amount, total amount and tax amount should be stated on the invoice

# Advanced shipping notices (ASN)

## Requirements for Each Shipment of Goods with Material Numbers\*

### Purchase Order Information

- Purchase Order Number
- Material Identification Number(s) – 10 digits only
- Quantity Shipped – number and unit of measure must match purchase order and physical shipment
- Net weight and gross weight
- Due date - delivery date at 'Ship To' location

### Manufacturing Data

- **All data sent on ASN must match PO as well as product and shipper labels**
- Batch Number – 10 or fewer alphanumeric characters only, for batch-managed products only
- Date of Manufacture – must be included with batch-managed products
- Dates follow YYYY-MM-DD format

### Freight Information

- Carrier and Bill-of-Lading number
- Small Parcel – tracking number
- Full Truckload – trailer and seal number
- Less-than-Truckload – pro number
- Ocean – container number
- Air – airway bill

**ASN Detail must match physical shipment detail, labels & PO information including PO delivery date – No special characters in any data fields**

**\*'Description only' goods shipments which cross international borders also require an ASN**

# 3M Batch Requirements

The source of supply location is responsible for the creation of the batch. When batches are created, they must adhere to the following requirements to enable proper flow of material and information throughout the extended value streams.

The Batch ID/Lot Number being created for a material must:

1. Be no greater than 10 characters
2. Not contain spaces
3. Only contain alphanumeric characters
  - 3.1 A through Z and 0 through 9 only
  - 3.2 No special characters i.e. -, \_, /, \, \$, \*, #, @, etc.
4. Not start with leading zeros if entirely numeric (e.g. 09192020)
5. Contain one and only one Date of Manufacture 1
6. Be included on the labeling of the batch managed material

1 It is best practice that Expiry Date be derived from date of manufacture and if the Expiry Date is derived from an input material the output batch should derive the date of manufacture from the input batch.

2 The date of manufacture and expiry dates may be expressed in month-year (i.e. 03-2020) on the labeling, even though in SAP they must be defined to the day (i.e. 31/03/2020).

# Frequently asked questions and answers

## Questions

## Answers

**What does the eCommerce requirement mean for me?**

- Transacting electronically is a requirement for all 3rd Party Suppliers doing business with 3M.
- This includes the Purchase Order, Purchase Order Acknowledgement (POA), Advanced Ship Notice (ASN), Invoice, and Payment.
- The ability and willingness to transact electronically will be a criteria for supplier selection and consolidation.
- Efficient and effective end-to-end processing for 3M and the supplier, reduce processing error rate, make supplier payments on-time.
- 3M eCommerce will recommend the tool that will work for the ways in which you transact with 3M now and in the future, but different options can be explored at your request.

**What changes need to be made regarding 10-digit vs 11-digit material numbers?**

There may be changes to packaging and labeling due to change in 3M material numbers. If applicable, we will provide additional information later regarding these changes.

# Frequently asked questions and answers

## Questions

## Answers

### Why do I need to send an electronic POA?

The electronic Purchase Order Acknowledgement (POA) is required to ensure that the ERP has the correct data for efficient processing and planning.

- The POA confirms that the PO **quantity, price and delivery date** are accurate, the date the order is due at the 'Ship To' location will be met and provides an opportunity for any necessary corrections or changes. **The buyer listed on the PO must be provided with an explanation for any material shortage.**
- If the PO quantity, price, or delivery date are inaccurate on the original PO, you must correct those inaccuracies via the POA to 3M. 3M will initiate a change to the PO to reflect the corrected values. You must submit another POA to confirm the PO reflects the intended and accurate fulfillment updates.
- The transaction path is PO, POA, ASN and Invoice. Example: if a POA is not submitted, you will not be able to continue through the flow until it is received.
- The POA must be sent within 48 hours of receipt of the PO.

### Why and when do I need to send an electronic ASN?

The Advanced Shipping Notice (ASN) alerts 3M of the inbound delivery data and details, enabling efficient planning and processing.

- ASN details, carrier information, Bill-of-Lading, Batch and other important data are automatically transmitted into the ERP for use by various functions within 3M.
- The ASN is required for all shipments of goods with a material number. In addition, the ASN is required for ‘description only’ goods shipments which cross country borders.
- If PO details (quantity, ship to location, price, delivery date, etc.) on the ASN do not match the information on the PO, the ASN will be rejected in the 3M ERP.
- If changes are needed on the PO, this must occur at the time of the POA and prior to the ASN.
- If the ASN is not received in the ERP, you will be unable to submit an invoice against the PO until the ASN is corrected and re-submitted.
- The ASN must be submitted via the eCommerce tool 24 hours before supplier shipment.
