

SCOTT™
Fire & Safety

3M™ Scott™ Reusable Full Face Respirators M95 & M98

With over 75 years of experience in the safety product industry, 3M aims to be the consultative partner of choice for providing Military Integrated Safety Solutions to help you meet your protection requirements, budgetary constraints and your ultimate goal of protecting and defending your entire force.

Our extensive Defence & Public Safety portfolio, including Respiratory Protection, Hearing Protection/ Communication solutions, Eye- and Fall-Protection amongst others, combined with our deep understanding of new and emerging technologies, puts us in a unique position to help analyze and meet your changing Defence & Public Safety needs.

The 3M™ Scott™ Reusable Respirator M95 presents the highest standard in modern CBRN protection providing unrivalled reliability, safety and user friendliness. Designed to meet the most critical hazards and stresses encountered in combat situations, the M95 gas mask is approved to EN136.

The 3M™ Scott™ Reusable Respirator M98 is designed particularly to protect against Chemical, Biological, Radiological and Nuclear (CBRN) hazards and riot control agents. Designed for extended wear times, the M98 offers a drinking device port for quick rehydration during line rotation.

3M™ Scott™ Reusable Respirators M95 and M98

3M™ Scott™ Reusable Respirator M95

3M™ Scott™ Reusable Respirator M95 presents the highest standard in modern CBRN protection providing unrivalled reliability, safety and user friendliness. Designed to meet the most critical hazards and stresses encountered in combat situations, the M95 gas mask is approved to EN136.

Fine in 9

The respirator is designed to be easy to don and doff - in less than 9 seconds

Lightweight

The respirator weighs just 760g with a CBRN22 filter

Halo-Butyl Facepiece

The Halo-Butyl Elastomer facepiece has been thoroughly tested in live-agent trials including chemical agents such as Sarin and Sulphur Mustard (HD)

Dual Lens

Dual lenses combined with a low profile fit are designed to provide downward and horizontal field of vision

Silicone Inner Mask

The small size silicone inner mask reduces the CO2 content to a minimum, designed to reduce fatigue

3M™ Scott™ Reusable Respirator M98

3M™ Scott™ Reusable Respirator M98 is designed particularly to protect against Chemical, Biological, Radiological and Nuclear (CBRN) hazards and riot control agents. Designed for extended wear times, the EN136 approved M98 offers a drinking device port for quick rehydration during line rotation.

Slim-line profile designed to allow easy integration with helmets and visors

Effective moisture drainage for wearer comfort during extended wear periods

Hypoallergenic elastomer construction for comfort

Lens positioning close to the eyes provides downward vision

Advanced speech diaphragm enables personal communication

40 mm connector accepts NATO/EN 148-1 type thread canister which can be attached to either side of the facepiece
