Spray Smart

3M™ Fastbond™ Pressure Sensitive Adhesive 1049

With a water-based formula and new cylinder delivery system, 3M™ Fastbond™ Pressure Sensitive Adhesive 1049 makes powerful bonding more sustainable without sacrificing performance or productivity. Now, you can solve your toughest bonding challenges while meeting your company's sustainability and safety goals. It's the smart way to spray.

3M™ Fastbond™ Pressure Sensitive Adhesive 1049 is manufactured with a solvent-free process.

A more sustainable solution

As emissions regulations around the world become increasingly stringent, 3M™ Fastbond™ Pressure Sensitive Adhesive 1049 can help you meet them.

Water-based formula helps meet goals to lower volatile organic compounds (VOCs), solvents, and other targeted substances.

Designed with **solventless, nonflammable** technology.

Can contribute to worker safety and **meet environmental health and safety (EHS) goals** by being nonflammable and manufactured with a solvent-free process.

Innovative cylinder design minimizes equipment investment and waste by replacing aerosol cans and reducing use of larger cylinders.

Meets high performance standards

Sustainability doesn't have to come with performance sacrifices. 3M™ Fastbond™ Pressure Sensitive Adhesive 1049 is a strong and versatile adhesive, ideal for lightweight bonding applications in insulation, construction, and more.

Bonded materials can be immediately repositioned, minimizing rework and damage to materials.

Fast, aggressive tack for a quick, one-surface bond.

Self-contained and portable cylinder makes application faster, easier, and more cost-efficient.

Disposable spray nozzle on the new applicator system is optimized for improved operational throughput and high coverage.

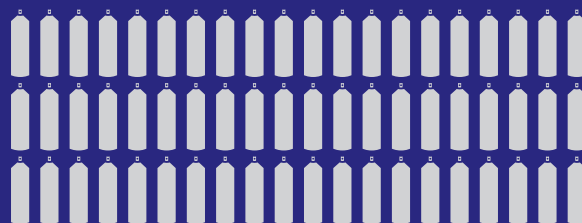

Maximize sustainability

Create less waste and invest less in equipment when you choose 3M™ Fastbond™ Pressure Sensitive Adhesive 1049.

1 cylinder

=

~60 aerosol cans*

*Based on a % solids calculation of 3M™ Super 77™ Multipurpose Spray Adhesive.
