

# 3M™ Digital Bonding

The future of orthodontics.

**Custom. Seamless. Flexible.**

3M™ Digital Bonding combines the power of customized treatment planning within the 3M™ Oral Care Portal.

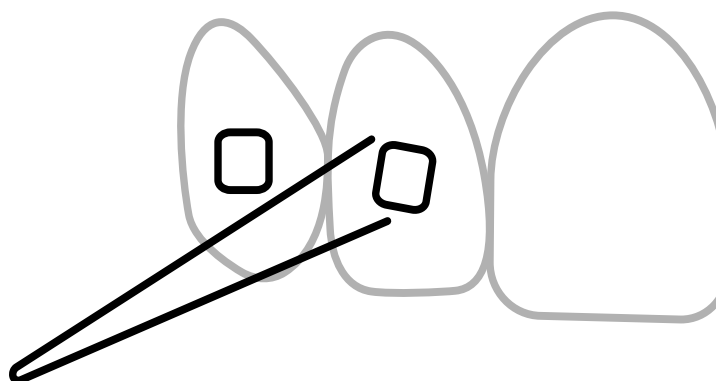

# 93%

of surveyed doctors agree 3M™ Digital Bonding is a superior bonding solution.\*

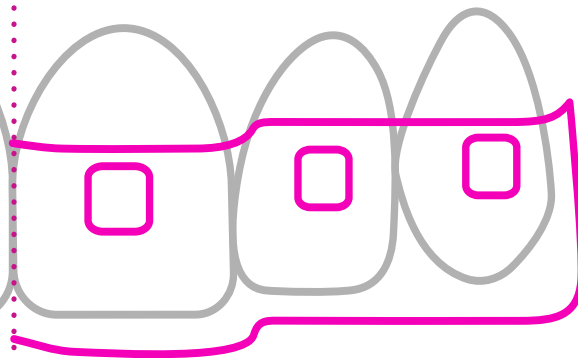

- With the Oral Care Portal, you can complete your treatment plans for both aligners and digital bonding in a single platform.
- Choose metal or ceramic brackets, aligners or combine appliances to fit your patient's needs.

## Common Bonding Challenges

- Difficulty in treatment planning and getting accurate placement.
- Variable process with multiple steps in bonding and bonding one by one.
- Flash cleanup adds time and difficulty.

## State-of-the-Art Solutions

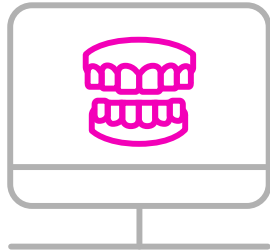

- Save time with precise analysis and bracket positioning with an intuitive web-based software.
- Fewer bonding steps and simultaneous bonding up to a full arch.
- 3M™ APC™ Flash-Free Adhesive eliminates the need for adhesive flash clean-up.
