3M™ Envision™ Print Film PL50mC

From farm to film.

3M™ Envision™ Print Film PL50mC is made from 40% bio-based materials. *

*Derived from non-food source corn.

40% bio-based film.*
100% stunning looks.

3M™ Envision™ Print Film PL50mC is designed with a solvent-free, ultra-removable adhesive making it a great option to upgrade graphics for fleet vehicles and interior and exterior signage. Plus, with Comply™ and Controltac™ technologies, you'll get a fast, bubble-free installation.

- Made from 40% bio-based materials, * helping customers work toward sustainability goals
- Recommended for short-term vehicle and fleet graphics, interior and exterior smooth, flat surfaces
- Adhesive removes cleanly above 10°C / 50°F without heat or chemicals
- Updated 3M™ Comply™ technology allows for virtually bubble-free application
- 3M™ Controltac™ technology reduces initial tack for excellent repositionability
- Outstanding print quality for latex, UV digital print and UV screen printers
- Eligible for 3M™ MCS™ Warranty
