

The 3M logo is displayed in its characteristic red and white colors.

 **Speedglas™**

Welding Safety

A welder wearing a 3M Speedglas helmet and protective gear is shown in a workshop setting, working on a metal piece. The helmet is black with a clear lens and a side-mounted adjustment knob. The welder is wearing a dark jacket and gloves. The background is slightly blurred, showing industrial equipment and a bright light source, likely the welding torch, which is creating a blue and white glow. The overall scene is dimly lit, emphasizing the welder and the helmet.
