

Recycled Corrugate Sealing Made Simple

When you think
recycled corrugate,
think 3M.

Overcome the Challenges of Recycled Corrugate with the 3M™ RC Plus+ Sealing System*

Tape adhesion

Tape may not adhere as well to recycled corrugate, creating sealing challenges.

Box crushing

Recycled boxes may be weaker and more prone to crushing during handling and transit.

System jams

Inconsistent box structure may lead to jams and disruptions in automated packaging lines.

*RC = Recycled Corrugate.

Your Complete Solution

3M RC Plus+ Sealing System components work together to help maintain consistent, high-level performance.

Tape Heads

Tape heads apply consistent, controlled pressure even when surfaces or fill levels vary.

Tapes

Tapes provide consistent, reliable sealing.

Equipment

Case sealers help maintain the structural integrity of recycled packaging.

When you think recycled corrugate, think 3M.

Contact your 3M representative to start tackling recycled corrugate challenges.
