

Product Change Notice: 3M™ Polarized Boardmount Sockets .100" x .100" to RoHS Compliant

Issue Number: 640
Date: March 31, 2006

To: 3M Electronic Solutions Division Global Copy List
3M Electronic Solutions Division Authorized Distributors
3M Electronic Solutions Division Customers

Product Change

3M is pleased to announce the change of the Polarized Boardmount Socket .100" x .100" product portfolio to RoHS compliant* versions. In all cases, the change to RoHS compliancy is based on replacing tin lead interfaces with gold flash over nickel.

The following 3M technical sheets, including any customer specials based on these platforms, are impacted by this change.

TS-0414	Polarized Boardmount Socket .100" x .100" (5100 Series)
TS-0689	Polarized Boardmount Socket .100" x .100" (6800 Series)
TS-0413	Polarized Boardmount Socket .100" x .100" (8500 Series)
TS-0690	Polarized Boardmount Socket .100" x .100" (9100 Series)

3M will offer this product platform in both compliant and non-compliant versions for a short time to assist customer transition. All last time buys of non-compliant product must be made by June 23, 2006, and be for immediate delivery. After June 23, we will only accept orders for, and ship, the RoHS compliant products.

*"RoHS compliant" means that the product or part does not contain any of the following substances in excess of the following maximum concentration values in any homogeneous material, unless the substance is in an application that is exempt under RoHS: (a) 0.1% (by weight) for lead, mercury, hexavalent chromium, polybrominated biphenyls or polybrominated diphenyl ethers; or (b) 0.01% (by weight) for cadmium. Unless otherwise stated by 3M in writing, this information represents 3M's knowledge and belief based on information provided by third party suppliers to 3M.

Product Change Notice: 3M™ Polarized Boardmount Sockets .100” x .100” to RoHS Compliant
